ABOUT US

Morphy Auctions in Lancaster County, Pennsylvania & Las Vegas, Nevada, has become one of the great success stories of the antiques trade. Founded by Dan Morphy in 1997, Morphy's has realized meteoric growth and set numerous world auction records in many categories, while attracting a global following of buyers that grows exponentially with each successive sale.

Our goal is to provide the best overall buying and selling experience for our customers. With one of the largest under-roof auction houses in the country, spanning over 45,000 sq. ft., the building is customized to meet the growing and changing needs of the antiques industry. Upon entering our facility you will notice an inviting customer service area conveniently staffed with full-time, knowledgeable employees and antiques experts who are happy to assist you. Morphy Auctions takes pride in providing you with quality antiques, professional service, and an enjoyable consignment experience.

Morphy Auctions has a team of experts to assess your collection and assist you in every step of the consignment process. Our expert team is highlighted in this brochure and includes specialists from all collecting categories, including: advertising, coin-op, toys, cast iron, dolls, fine and decorative art, firearms, automobiles, plus many more.

With our main headquarters located in Denver, Pennsylvania, our proximity to Philadelphia, New York, Baltimore and Washington, D.C., makes us easily accessible to potential auction bidders and consignors.

Morphy Auctions is grounded in the values of honesty and integrity. We continue to be the discriminating collector's #1 choice when it comes to buying or selling antiques.

CONSIGNING WITH US

"We have known and dealt with the Morphy family for the past 25 years. We have always found the whole family helpful and welcoming. Dan is a driving force and energetic personality who will professionally represent your collection in the marketplace. With the close support of his whole family, you can be confident that you and your collection will receive direct personal attention. You will always enjoy a friendly welcome and be assured that you will be treated fairly. The result will be a great auction experience."

- John & Adrienne Haley,
United Kingdom

Morphy Auctions offers a wide range of categories from Tiffany to mechanical banks, specializing in "fresh to the market" collections. We work hard to create a welcoming atmosphere that encourages optimal financial results for our consignors. We are committed to taking the utmost care in handling the items, giving our consignors the personalized attention and dedicated staff support they deserve, and making every auction a high-profile event in every sense of the word. From the extended preview to the prime auction location and professional advertising and marketing campaign, it's easy to see why your collection should be entrusted to the experts at Morphy's.

We never cut corners, and to ensure proper attention is given to each collection, a minimum of four months' lead time is required for all consignments. All consignments are entered into a custom-designed inventory system and auction database in order to ensure proper documentation and inventory tracking. Throughout the entire process, all auction items are fully insured, from the moment we take possession of goods until ownership has transferred on the date of sale.

Morphy Auctions is one of the largest under-roof auction houses, spanning over 45,000 sq. ft. The facility is customized to meet the growing and changing needs of the antiques industry. Our goal is to provide the best overall buying and selling experience for our customers.

The clean, well-lit, fully carpeted and climate-controlled gallery is customized to ensure the ideal atmosphere for the antiques and collectibles housed within. Whether large or small, all of the antiques are properly secured and professionally displayed to maximize their eye appeal.

Attributes of the facility include executive and staff offices, a conference room, holding area for loading/unloading goods, custom-built storage space with a museum-quality rack system, three self-contained photography studios, a black-light room for close-up inspection of auction items and a dedicated shipping and packing area.

The pride of the facility is the stylish auction room, featuring comfortable theater-style seats, a marble floor and decorative tin ceiling with ambient lighting. With technology continually evolving, Morphy's strives to offer state-of-the-art options for bidding and auction participation. The auction room's design features the latest telecommunications, wireless technology and custom acoustics for the best auction experience possible.

Adjacent to the auction room is a sleek and comfortable dining facility equipped with an audio-feed function and windows to enable bidders to monitor the auction activity while dining. The facility also has an outdoor patio area.

Ample parking and all-weather canopy over the front door allow for easy customer deliveries and pickups. Morphy's utilizes a fully enclosed loading/unloading dock with hydraulic lift for larger-scale antiques and tractor-trailer deliveries and pickups. No collection is too large or too small for Morphy Auctions to consider.

BIDDER TERMS AND CONDITIONS

We advise all bidders to read the Terms and Conditions of the Sale before bidding with Dan Morphy Auctions LLC and/or its affiliates Morphy Firearms LLC, and Morphy Auctions, Las Vegas collectively referred to below as DMA. Those who bid are bound by those Terms and Conditions of the Sale, as amended by any oral announcement or posted notices, which together form the contract of the sale between the successful bidder (purchaser), DMA and the seller (consignor) of the lot.

TERMS OF SALE

When bidding on any lot offered by DMA, the bidder indicates acceptance of the following Terms of Sale. Any participation in the auction binds you to agreement of these terms whether or not you read or understand said terms.

CONDITION OF ITEMS

DMA makes every effort to accurately describe all items offered in its sales, however all items for sale are "as is," and it is the bidder's responsibility (present or absentee bidders) to determine the exact condition of each item. DMA will not be held responsible for typographical errors. Neither we nor the consignor, make any guarantees, warranties, or representation expressed, or implied, in regard to the property or the correctness of the catalog or other description of the authenticity of authorship, physical condition, size, quality, rarity, importance, provenance, exhibition, literature or historic relevance of the property or otherwise. No statement anywhere whether oral or written, shall be deemed such a guarantee, warranty or representation. Prospective bidders should inspect the property before bidding to determine its condition, size and whether or not it has been restored. The consigner and we make no representation or warranty as to whether the purchaser acquires any reproduction rights in the property. Returns will not be accepted under any circumstances. All items will be available for preview one (1) month prior to the auction.

All items are sold for display purpose. If electrical, mechanical, or other working parts are inoperable, even if working at the time of sale, we are not liable due to the inherent nature of the age of these antiques and items.

AUTOMOBILES – These terms do NOT apply to our automobile auctions. To view the terms and conditions for our Automobile Auctions, please go to: www.morphyauctions.com/autoterms

FIREARMS – All firearms transfers will be in strict accordance with all International, Federal, State and local laws. Be sure to check your country, state and local laws before bidding. If you are unable to import, purchase or own a firearm according to your residency laws, do not bid on these items. If you bid and find out later you cannot legally own/accept delivery, the bid is still a valid contract that the buyer must pay.

- **Modern Firearms** (post 1898) will be noted with a double asterisk (**) at the beginning of the title and Class 3 weapons will be noted with a triple asterisk (***) at the beginning of the title. These firearms require special processing.
- **Checkout and pickup at our location:**
  - The same person to whom the bidder number is registered must be the person to pick up the firearm(s) at the conclusion of the sale – Federal Law disallows anyone else from accepting the transfer.
  - Modern firearms sales to non-licensed bidders who are picking up guns at our location will require the completion of a form 4473 background check. Handgun purchases also require an additional PICS form/background check for each handgun purchased. This process to fill out forms and obtain a response may take 5-10 minutes.
  - If you are "Denied" by FBI / PICS background check, you will not be able to take possession of the firearm and the firearm will be consigned to the next available firearm auction. If you do not pay for the item in full, bidder will be blocked from participating in future firearm auctions.
  - If you are appealing a "Deny" decision, we will hold the gun only if you pay in full for the item.
  - Licensed bidders, i.e. Federal Firearms Licensees or Curios & Relics License holders must present a current signed copy of their license. (C&R licensee purchases must conform to the BATF C&R requirements).
  - Class 3 weapons processing depends on if the purchaser is a dealer or an individual
    · Dealers: Need a copy of FFL and SOT license. Estimated time for processing and approval of the required Form 3 is two months.
    · Individuals: Law requires a completed Form 4. DMA will assist in preparing and getting steps done, includes fingerprint, photo, and a fee of $200. Estimated time for processing and approval of Form 4 is 6-8 months.
- **Shipping**
  - Non-Residents of Pennsylvania may not pickup modern handguns. Any firearms shipped are legally required to be shipped to an ATF licensed FFL dealer within your state of residence for transfer and pickup. You will be responsible for all shipping and transfer costs incurred.
  - Modern Handguns are required to be shipped via Priority Overnight.
  - Modern Long Guns are shipped via ground to the FFL dealer.
  - Upon paying for the gun you can contact a licensed dealer to send their FFL to firearms@morphyauctions.com with the paid invoice number notated.
  - DMA will not be responsible for exporting modern firearms or any ammunition. Buyer will need to locate a US Dealer that can export these items to their country.
- Long guns will only be sold to persons 18 years of age, or older. Handguns will only be sold to those persons 21 years of age, or older. Dealers are bound by these minimum age requirements.
- Since all firearms sold are "collectible" items, DMA does not test the safety or warrant functionality of these firearms. All firearm purchases should be examined by a certified gunsmith prior to shooting.
- DMA reserves the right to deny the sale of a firearm to any buyer

GAMING DEVICES - These items may be held for up to 5 business days so the state agencies can verify the purchaser's information. All auction participants are urged to check the legality of possession and/or shipment of gaming devices to their state of residence. Any gaming device purchased at the auction shall be used for the purpose of display or social entertainment within the private home or residence of the buyer and such devices shall not, in any event or manner, be exposed to the public for the purpose of gambling.

FIREWORKS – DMA can only ship Class 1 Division 1.4 and 1.6 Explosives (as described in the following website: http://environmentalchemistry.com/yogi/hazmat/placards/class1.html) per the 49CFR 173.50 and can only ship these via FedEx. All items not shippable must be picked up by the buyer.

Grading Scale:

BIDDING

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer alone has the right to reopen the bidding of an item if deemed necessary due to a dispute. If there is a tie bid between the floor and Internet or absentee bid, the floor bid takes precedence. DMA and its representatives reserve the right to remove those attendees who impede preview and/or the auction. Title to all merchandise shall pass to the highest bidder at the fall of the auctioneer's hammer. The buyer will then assume all risk and full responsibility of the lot purchased once ownership has changed.

- **ABSENTEE BIDDING** - DMA will accept absentee bids if pre-authorized by mail, fax or through www.morphyauctions.com online. Absentee bidders must use the absentee bid form and clearly mark the lot number, title and maximum bid amount. Absentee bidding forms may be accessed online at www.morphyauctions.com. If there are two (2) identical bids placed on the same item, priority will be given to the first bid received. All bids must be left in increments as explained on our bid form. If a bid is "out of increment," the auctioneer has the right to round the bid up to the next correct increment. Bidders may preview, register and place bids online through our website, www.morphyauctions.com. Absentee and online bids placed through www.morphyauctions.com will be auto charged to the credit card entered 48 hours after the end of the sale. If you wish to pay by another method please contact us within 48 hours after the sale. Seller(s) agree to allow the Auctioneer to accept and execute absentee bids in a competitive manner for potential buyers and under the Morphy Auctions absentee bidding terms and conditions. During the live sale, the auctioneer will execute your absentee bid competitively up to the maximum amount you have indicated.
- **ONLINE BIDDING** - Online bidding through www.morphyauctions.com, Live Auctioneers, and Proxibid may be available; all Terms and Conditions still apply. If there is a tie bid between the internet bidding venues and the floor, the floor bid takes precedence. If a credit card has been provided to one of the online bidding platforms, DMA reserves the right to use and charge the credit card if the winning bidder has not paid via another method by the 7 day term in Payment Terms below. Due to our fast paced auctions and bids coming from floor bidders, phone bidders, internet bidders and absentee bids, the auctioneer has the final word on all item(s) sold. You (the bidder) assume the risk of winning an item online and not having the item actually sell to you. This is due to the final call of the auctioneer and the operator not being able to re-open that lot. Please allow 24-48 hours post auction to receive your official invoice from Morphy Auctions.

- **TELEPHONE BIDDING** - *Requests for phone lines must be received at least three (3) days prior to the auction date.* DMA cannot guarantee phone lines but will make every attempt to accommodate those who wish to participate through that method. Phone lines are provided on a first come first served basis. Please visit www.morphyauctions.com or call 717-335-3435 to request a call from our representatives during the live auction.

BID INCREMENTS

Bid increments listed are a general guideline. Actual increments are at the auctioneer's discretion. If a lot does not receive a bid of 25% of the low estimate, the lot will be passed by the auctioneer.

$0 - $500..................$25
$500 - $1,000...........$50
$1,000 - $2,000.........$100
$2,000 - $5,000.........$250
$5,000 - $10,000.......$500
$10,000 +................. Auctioneer's discretion

RESERVES

The majority of our items are unreserved, but occasionally items may carry a moderate reserve. Please note that when a lot carries a reserve, the reserve is usually somewhere below our low estimate. In the case of a reserved item, the seller has authorized the auctioneer to bid on their behalf until the reserve price is reached.

BUYER'S PREMIUM

A 20% buyer's premium will be added to all successful bids and is payable by the purchaser as part of the total purchase cost. If payment by cash, check, money order or wire transfer is made within 7 days of the sale a 2% discount may be taken on the Hammer price by the buyer. **DISCOUNT IS ONLY AVAILABLE IF INVOICE IS PAID WITHIN 7 DAYS from the sale date.** Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment.

SALES TAX

Lots delivered to you, or your representative are subject to all applicable state and local taxes, unless appropriate permits are on file with DMA. Bidder agrees to pay DMA the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by DMA five days prior to Auction, or tax must be paid; only if such form or certificate is received by DMA within 4 days after the Auction can a refund of tax paid be made. Lots from different auctions may not be aggregated for sales tax purposes.

PAYMENT

All merchandise must be paid in full within seven (7) days of the date of the sale. If payment by cash, check, money order or wire transfer is made within 7 days of the sale, a 2% discount on the Hammer price may be taken by the buyer. **DISCOUNT IS ONLY AVAILABLE IF INVOICE IS PAID WITHIN 7 DAYS from the sale date.** Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment. **Purchases totaling $100,000 or more must be paid within three (3) days of the date of the sale.** Call 717-335-3435 to pay your invoice by phone or mail payment to: Dan Morphy Auctions LLC - 2000 N Reading Rd., Denver, PA 17517

Absentee bids placed through www.morphyauctions.com and Proxibid.com will be auto charged to the credit card entered 48 hours after the end of the sale. If you wish to pay by another method please contact us within 48 hours after the sale.

We accept Visa, MasterCard, Discover, American Express, personal checks/ certified checks, wire transfers, money orders, and cash.

- **CREDIT CARD** - For first time buyers and credit card charges greater than $2,500.00 buyers must complete the bottom portion of the invoice and must specifically sign the acknowledgement of our terms of sale before we will accept payment via credit card. We do offer the convenience of paying automatically by credit card. If you wish have your card automatically charged for all purchases please complete our "Authorization for Automatic Credit Card Use." We have this form available online or upon request. Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment.
- **CHECK** - There will be a $30.00 service charge for returned checks. Make checks payable to: Dan Morphy Auctions LLC. DMA reserves the right to hold items paid for by personal or company check until said check clears (14 days). DMA has the right to hold all checks over $2,000.00. Customers who have an established successful buying history with DMA may be exempt from this. We will accept a personal or company check >$2,000 and/or from a first time buyer if you provide a Bank Letter of Credit, available on our website, www.morphyauctions.com.
- **WIRE TRANSFERS** – There will be a $30.00 charge added to all wire transfers less than $2,000.00. Please add this amount to your invoice total before sending a wire transfer.

In the few situations where a successful bidder does not remit payment when due, DMA will proceed with the legal steps necessary to protect its interests and will block the bidder from future auction participation.

PACKING/SHIPPING

- It is the bidder's responsibility to take shipping and handlings & insurance costs into consideration when bidding on items.
- **BIDDERS PRESENT AND TAKING ITEMS AFTER AUCTION** – Since item liability transfers upon a successful bid, items paid for must be packed, transported and/or removed by the purchaser at his/her own risk after the close of the sale. If any employee or agent of DMA shall pack or transport the merchandise, it is fully at the risk and responsibility and expense of the purchaser. DMA shall not be held liable for any loss or damage that may be caused by the said agent or employee.
- **ITEMS NOT PICKED UP THE DAY OF THE SALE** – Packaging, shipping, and insurance on items will be made available as an added courtesy and cost. Again, if any employee or agent of DMA shall pack or transport the merchandise, it is fully at the risk and responsibility and expense of the purchaser. DMA shall not be held liable for any loss or damage that may be caused by the said agent or employee. All applicable charges will be applied. Shipping will be based on actual costs via FedEx, FedEx Freight, or USPS (best way). Handling and insurance will vary in cost depending on each invoice. All packages will be shipped with insurance. Items will ship seven to fourteen (7-14) business days after payment is received.
- **INTERNATIONAL SHIPMENTS** – DMA has the capability to ship to international bidders. By law, DMA cannot, and will not, declare lesser values for any international purchases and all shipments will include the invoice with purchase totals including the buyer's premium and shipping cost. All international bidders are responsible for knowing their country's laws on importing items and for paying all customs and duties on the items.
- **3RD PARTY SHIPPING** – For any buyers who wish to arrange, or must arrange due to the size of the item, for their own shipping, DMA must be notified at least seven (7) days prior of shipping company name and arrival date and time. Pickup must be scheduled to begin and end within our normal business hours (9am – 4pm, seven days a week). Buyers must arrange weekend pickups in advance with DMA staff, and additional charges may be necessary for overtime. 3rd party shipper must arrive with a copy of the invoice.
- **STORAGE FEE** – DMA will charge a storage fee of $50/week for any items awaiting pickup for more than 30 days.
- **MORPHY AUCTIONS, LAS VEGAS LOCATION SPECIAL COURTESY** – Items purchased at our Las Vegas location may qualify for free shipment on our freight truck to Denver, PA. To be considered for shipping, all item invoices must be paid in full by day 7 after the auction, or they will not be shipped on the truck and shipping charges will then apply. Items will leave Las Vegas approximately 14 days after the auction date. Upon arrival in Denver, PA the buyer must pick items up within 14 days, or a $50/week storage fee will apply. Buyers will be contacted by phone or email when items arrive in Denver, PA. It is the buyer's responsibility to pick the items up here. For packages to qualify for courtesy shipping, at least one piece or all pieces together in a package, must have a dimensional size of more than 130sq inches. Dimensional size is length (the longest measurement) + (height x 2) + (width x 2). For example, a 36" x 36" x 12" package = 36 + (36 x2) + (12 x 2) = 132.
- **FIREWORKS** – DMA can only ship *Class 1 Division 1.4 and 1.6 Explosives* (as described in the following website: http://environmentalchemistry.com/yogi/hazmat/placards/class1.html) per the 49CFR 173.50 and can only ship these via FedEx. All items not shippable must be picked up by the buyer.

POST SALE RETURN POLICY

- DMA hires knowledgeable experts to provide catalog descriptions on the merchandise we sell. Every effort is made to ensure those descriptions are accurate and that they fully disclose any exceptions to condition. Any buyer who has made their payment within the due date of 7 days who wishes to report a problem must notify DMA within three (3) days of receipt of their purchased item. Buyers who have not made their payment within the due date of 7 days may not return any items under any circumstances after 35 days of the auction. No lots purchased by floor bidders (including those bidders acting as agents for others) may be returned. A Return Authorization Number (RA#) must be issued by DMA before you ship anything back to our address. Any items arriving without a return authorization will not be given a refund. The item in question must be shipped with the RA# on the outside and inside of the package, with full insurance, so it arrives at DMA within one week of the aforementioned authorization.

415 - **MIB BROWNING SUPERPOSED 20 GA. O/U SHOTGUN.
Serial No. P33PV01857 Manufactured in Belgium. This is a Continental Grade Lightening 20 gauge with 28” vent rib barrels choked full over modified. This is one of the highest grade Lightenings made by Browning. Chamber length is 3”. LOP is 14-1/4” to a single select trigger. This gun has to be out of the custom shop as all the information we can find on the Continental Grade deals with a over/under rifle set. It is one of the most exquisite and high grade Browning Superposed shotguns produced. To begin, the frame is in a coin silver finish, antiqued. The entire frame is profusely engraved, features four gold inlaid birds on right side set within a wooded scene. The left side features five gold inlaid game set in a marshy scene. Bottom of frame has a gold inlaid duck. Engraver has signed the work (A. Bee). This is the work of master engraver Angelo Bee who worked in Belgium for Browning for 25 years. Even the trigger guard is profusely engraved and actually has a cut out with a gold-finished bird. It has a gold trigger. There is some fine engraving at breach of barrel as well as the forearm release and the bottom of the lugs. Stocks are a high grade, highly finished walnut. The checkering pattern is spectacular in that the border is done in a relief scroll, very Germanic in style. Of course the gun remains in as new never fired condition in the matching factory box with paperwork. An exquisite 20 gauge, custom shop, engraver signed, one of a kind shotgun that is awe-inspiring. 10,000.00 - 20,000.00

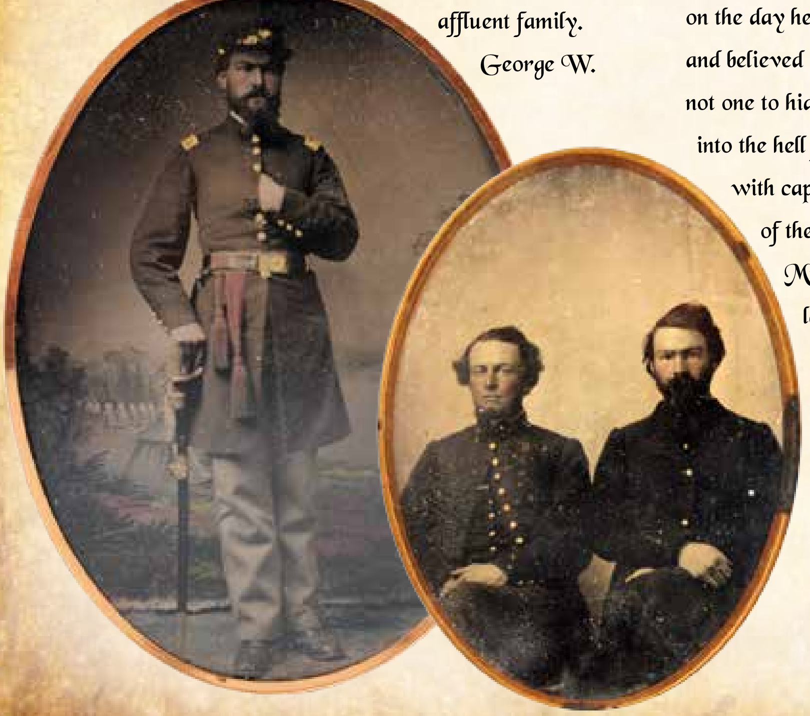
With the bodies of fallen cavaliers yet unburied upon battlefields, places whose names are now a hollowed reminder of the American experience, pundits were arguing the scenarios of what might have been before that fateful day in 1861 when the militia of South Carolina set siege to the Union army encamped at Fort Sumter. From that day on, these presumptions mattered not. The greatest loss of American life due to a singular event was the inevitable outcome that had been, for over a decade, in the making. And for the next four years and to hundreds of thousands of families, what played out as the most horrific time frame in our short history became their reality. Here in lies the ultimate tragedy. To every Mothers son who answered the call of duty, most believed that God was on the side of the righteous and therefore, he must be on their side. Some enlisted for adventure and glory, most joined the cause of right and some just found themselves awash in the tidal wave of war.

One such family resided in the East Goshen Township of Pennsylvania. Mr. Pratt Roberts and Mrs. Ann Roberts raised two sons that would, by the year 1862, find themselves embroiled in the great struggle that was to be forever referred to as the Civil War, or the War for Southern Independence, depending on your allegiance. Both sons were well educated and from an upwardly affluent family. George W. Roberts held a Masters Degree from Yale. He was a young up and coming lawyer practicing in Chicago that fateful summer. He felt the Union cause most intensely. Soon after the hostilities commenced, he helped to form what would become the 42 Illinois Volunteers and presently received his commission as Major.

His brother Charles still resided near the family home in Pennsylvania. He too realized the implications of the struggle that this young nation was embarking on and felt that the outcome of this conflict was of utmost importance to the survival of the Union. He heeded the call to duty as well and soon enlisted with the 124th regiment of Pennsylvania volunteers. His class status and formal education enabled him a promotion to Captain in 1863. So it was that both brothers, now living hundreds of miles apart and the only two sons of the Roberts family were both on the same road to destiny. This was not their story alone, it was one that played itself out in every small hamlet in America and touched just about every family.

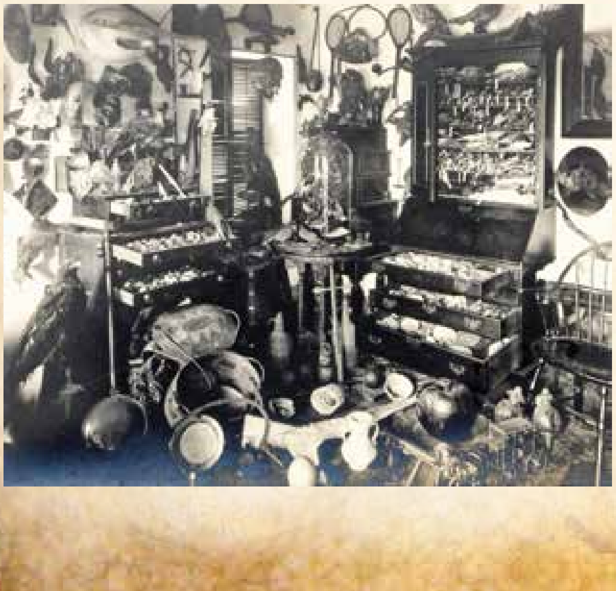
George Roberts was conferred the rank of Brigadier General while commanding the third Brigade under General Sheridan. His promotion would never become another star on his tunic as it was sent through proper channels and arrived on the day he fell on the field of honor. He was a born leader and believed in leading by example, on the front line. He was not one to hide behind the veil of safety while hurtling his troops into the hell fire from the back lines. He was last seen alive with cap in hand, waving on his troops while at the front of the line on his bold stallion when a Confederate Minnie ball found its mark. This little plot of land where he took his last breath was to become forever referred to as Hells Half Acre. This represents a microcosm in the larger picture that was officially titled The Battle of Stone



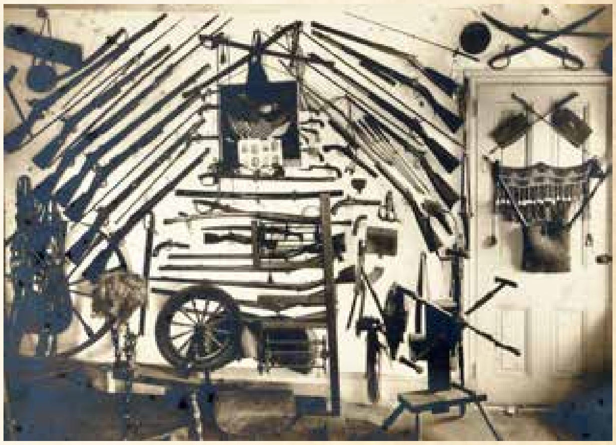
River. It was a beautiful field near Murfeesboro until that fateful day of December 31, 1862.

While brother George lay dead in a small field hundreds of miles away, Charles too was fighting for his life. His Hells Half Acre bore the names of towns like Chancellorsville and Antietam, the latter recalled as the bloodiest day of battle ever fought. Fate spared brother Charles through three years of bloodshed and he survived the tempest to return home to his beloved parents in Pennsylvania. Eventually, he purchased a farm outside eastern Pennsylvania in 1884 where he lived out his days until passing in 1895. It was only fitting that the Roberts family contributed to and attended the unveiling of the monument erected at Antietam where so many of Charles' comrades had fallen. Soon after the war ended, Charles was reunited with his brother George who also found his final rest in Pennsylvania.

This was not just the story of the Roberts family during the war; it was a similar string of events experienced by literally every family throughout the nation. Some came home, many did not. Some made it back physically but none returned unchanged. Most served their country and conscience as they saw it but none survived unscathed.



The offered collection is that of the original family of George and Charles Roberts. It is not mearly a collection of items gathered by a surviving brother; rather it represents a family history and their heritage. In some ways, it represents all the families that lived through this ordeal. Charles eventually built a room on the 3rd floor of his farmhouse to house all of the mementos that he had gathered over the years and he referred to it as the "Museum Room". The two photographs that we have reproduced of this room were taken in 1904. Charles was known as a "naturalist of some ability" and "was given to historical research and collected a number of valued relics" which he displayed in his "room". The following lots remained in that room until they were consigned by the family. They were literally removed from the very walls on which they were displayed for over 130 years. These items represent one of the greatest untouched collections ever uncovered.



Seldom does such a collection that has remained in one family and place for over a century come to market. It is an honor and a privilege for Morphy Auctions to have been entrusted by the family to find a new home for these historic relics that have been an integral part of the family history through so many generations. Within this collection are some of the finest personal effects of the Roberts brothers as it relates to the Great Struggle of 1861-65. In addition, there are numerous items that held a special interest to Charles and were collected by him prior to his passing. We are pleased to present this collection in its entirety with the hopes that these artifacts will find just as treasured a place elsewhere as where they have previously resided.

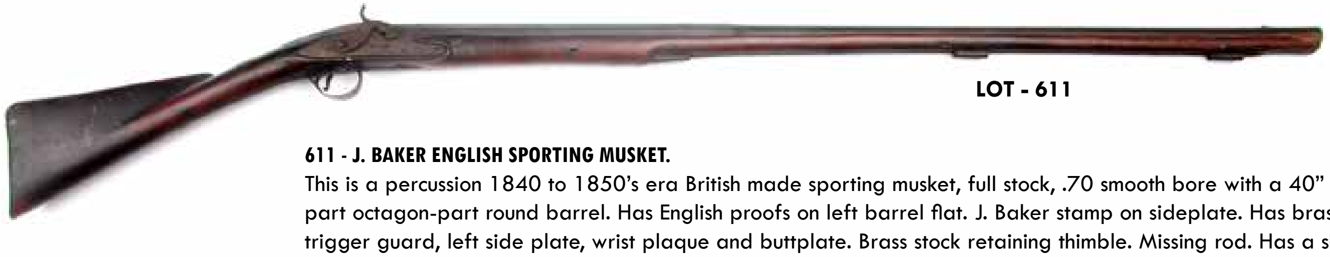
610 - LOT OF 3: BOLT ACTION MILITARY RIFLES.

The first rifle is a Swiss Vetterli which was introduced in 1869. It has a 33" barrel and is chambered for the .41 Swiss rimfire cartridge. It is the first bolt action repeating rifle to be used as a military service weapon. It has a 12 round tubular magazine, blued finish, full length walnut stock, full length cleaning rod, and a trigger guard with spur. Rifle is in excellent, all original, condition. Barrel retains approximately 95% original factory blue with some light freckling. Near mint checkered walnut stock. Barrel bands are patina. Original military sights. Frame is a mix of blue and brown patina. Perfect action. Strong clean bore. All proper strong military inspector marks on wood and metal. The second gun is a Model 1893 Spanish Mauser. Bridge stamped "Berlin 1896". Caliber 8mm cartridge with a 30" barrel, blued finish and walnut stock. All metal surfaces are brown patina. Stock is excellent with usual bumps and some staining, but no cracks or chips. Bolt matches receiver, as does floorplate. Very good bore and action. Has a 1918 dated W.T.&B. leather sling and cleaning rod. The last rifle in this lot is a French Chassepot Model 1866 rifle. This is a needle gun, bolt action, single shot, chambered for the 11mm paper cartridge. Barrel length is 32.5", full stock, with two barrel bands. These were used in the Franco-Prussian War in 1870 to 1871. The metal is finished in the white and is a smooth brown patina. All original. Very good original walnut stock numbered to gun. All matching numbers. Very good bore. Comes with an original bayonet and frog. 600.00 - 1,200.00



LOT - 611

611 - J. BAKER ENGLISH SPORTING MUSKET.

This is a percussion 1840 to 1850's era British made sporting musket, full stock, .70 smooth bore with a 40" part octagon-part round barrel. Has English proofs on left barrel flat. J. Baker stamp on sideplate. Has brass trigger guard, left side plate, wrist plaque and buttplate. Brass stock retaining thimble. Missing rod. Has a shell pattern carving at top of wrist. Slightly flared muzzle. Some chipping and cracks at forend. 2" loose piece of wood at face of sideplate. Metal is dark brown patina. No cracks in buttstock. No nipple. Hammer does not stay back. Bore needs cleaning. With a little attention to the stock and some mechanical tuning, this would be a good example of an English musket. 300.00 - 600.00

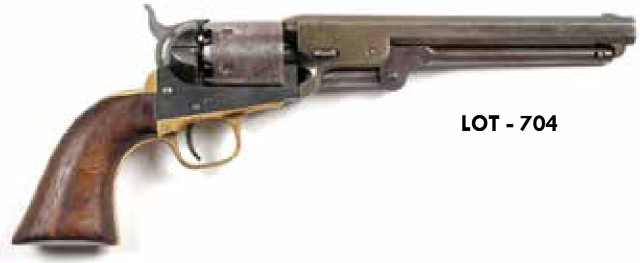
703 - ANTIQUE WOODEN HORSE & STAGECOACH PULL TOY.
This pull toy dates to at least 1895 and was in the Roberts museum room. The significance of which we are unaware. There is no manufacture marks to be found. Toy conists of a wooden platform with two composition horses with real hair (platform is missing one wheel and one horse is missing a rear leg). Leather attachments show various amounts of deterioration. The stage coach is made of wood. Seems to be fairly complete, albeit there are some small broken pieces and needs to be careful reassembled with some minor repair needed. With a little bit of careful cleaning and reassembling, this could be a very interesting early wooden toy. (Good - Very Good). 100.00 - 300.00



LOT - 704

704 - COLT MODEL 1851 NAVY REVOLVER.
Serial No. 200408 This revolver was manufactured in 1853. It has all matching numbers including wedge. Gun features a 7-1/2" octagon barrel, six shot, single action, .36 caliber percussion. Overall clean gun. Barrel is basically gun metal patina with some light pitting. Barrel address partially obscured. No visible cylinder scene with some minor pitting. There is no color left on the frame. Appears to have some wiped-on finish. Traces of plating on trigger guard and backstrap. Never cleaned. Very good walnut grips with traces of varnish. Fine nipples. Working condition. Very good bore with some minor corrosion. 800.00 - 1,200.00

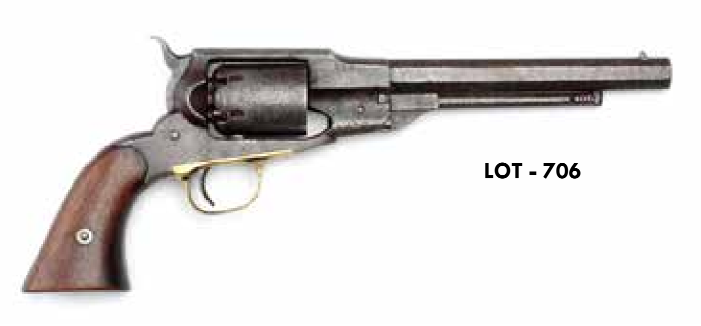
705 - JAMES WARNER POCKET MODEL REVOLVER.
Serial No. 5831 Produced from 1857 through 1860's by James Warner in Springfield, Mass. This is a second model, first variation, .28 cal, percussion six shot, single action with a 3" round barrel, an under barrel loading rod, center hammer, walnut grips. Features engraved cyl, frame and rear grip strap, silver plated brass trigger guard. Metal is basically a smooth grey patina with traces of silver on trigger guard and excellent varnish grips. Seems to work sporadically, needs some attention. 200.00 - 400.00



LOT - 706

706 - REMINGTON BEALS' PERCUSSION REVOLVER.
Serial No. 13007 This revolver was manufactured circa 1861-1863 and is referred to as the Navy model. It features a 7 - 1/2 octagon barrel, six shot, un-fluted cylinder, it has the concealed barrel threads at breech with the safety notches, walnut grips, blued finish, case colored hammer, brass trigger guard, .36 caliber procution, single action and the 1858 paten barrel date. The metal is basically a grey brown patina with some fine salt and pepper pitting throughout, has the original nipples, very good walnut grips, indexes properly but cylinder does not lock into place and a fine strong bore. It is a fairly scarce civil war revolver.

LOT - 708

708 - CASED SMITH & WESSON MODEL NO. 2 ARMY REVOLVER.
Serial No. 67407 This revolver was manufactured in 1868. The Model was popular as a personal sidearm throughout the Civil War era and it is noted that Wild Bill Hickok carried this model while in Deadwood. Standard features on this revolver are a 6" octagon barrel, blued finish, single action, spur trigger, rosewood grips, square butt, six shot not fluted cylinder and chambered for the .32 rimfire long cartridge. The hinge is strong and tight. Action works as new. Barrel retains approximately 20% of the original factory high polish blue, the majority on the left breech barrel flat and under rib. The cylinder retains approximately 20% of the blue finish. Frame and grip straps retain fully 90% of their original blue. The majority of the case colors remain on hammer. Rosewood grips are near mint. Edges are sharp as new. Near mint bore. This gun appears to have seen very little use and most of the finish loss is simply due to flaking and has turned a soft patina. It is housed in a vintage wood case that may have been repurposed but at the very least has been relined with brown felt. A brass box stamped "H.L.A." contains 50 cartridges.

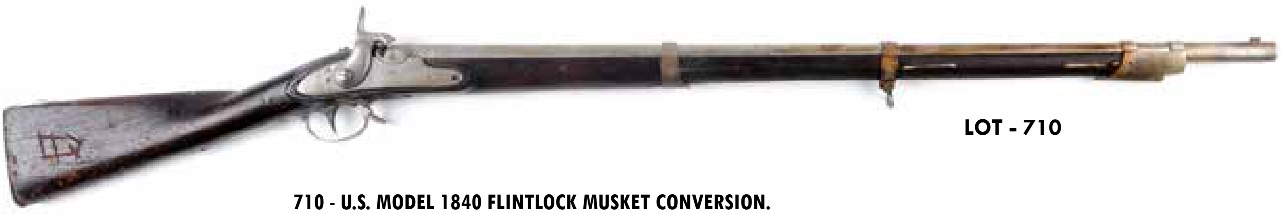
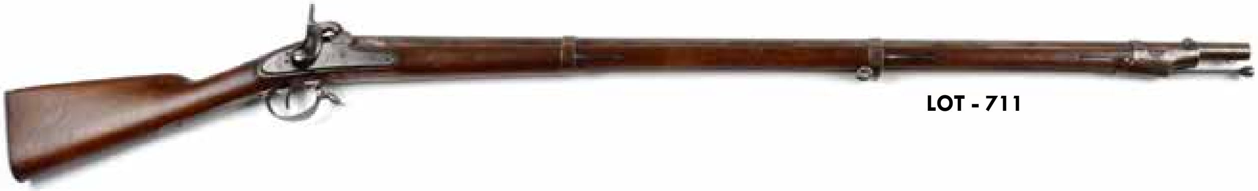
709 - U.S. MODEL 1816 MUSKET CONVERSION.
Manufactured by W.L. Evans in Evansburg, Pennsylvania. Approximately 5,000 manufactured circa 1825 to 1830. Sideplate is dated 1825 and stamped "Evans Valley Forge". It has been converted to percussion, otherwise rifle is standard as follows: .69 caliber, single shot, 42" round barrel, three barrel bands, iron mountings. All metal surfaces are dark brown patina with areas of heavy rust pitting. Extremely rough at last 3" of breach. Sideplate has been refinished as has pitting. Wood is chipped and cracked with damage at buttplate. Original nipple. Has an original period sling. This is a Civil War used relic. 400.00 - 800.00



LOT - 710

710 - U.S. MODEL 1840 FLINTLOCK MUSKET CONVERSION.

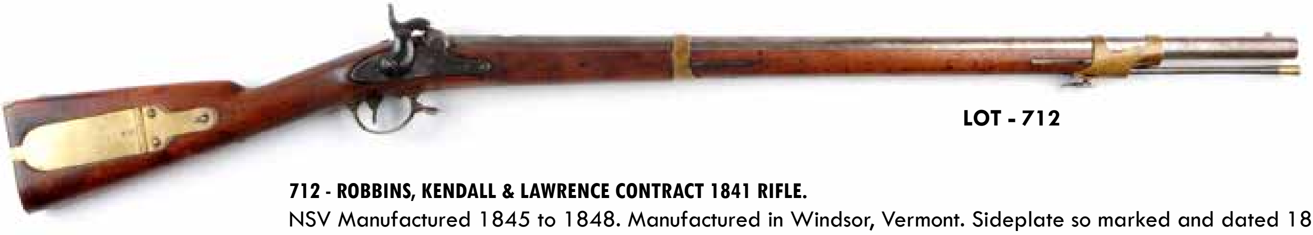
NSV These were converted between 1849 and 1851. It is a .69 caliber smooth bore, barrels shortened to 34-1/2", three barrel bands and walnut stock. All metal surfaces have been cleaned. Sideplate stamped "Harpers Ferry 1841". Metal is basically in the white with severe pitting at breach. Hammer is loose. Conversion is crude. Stock is rough with numerous dings and dents. Poor bore. Appears to be period altered. 300.00 - 500.00



LOT - 711

711 - U.S. MODEL 1842 PERCUSSION MUSKET.

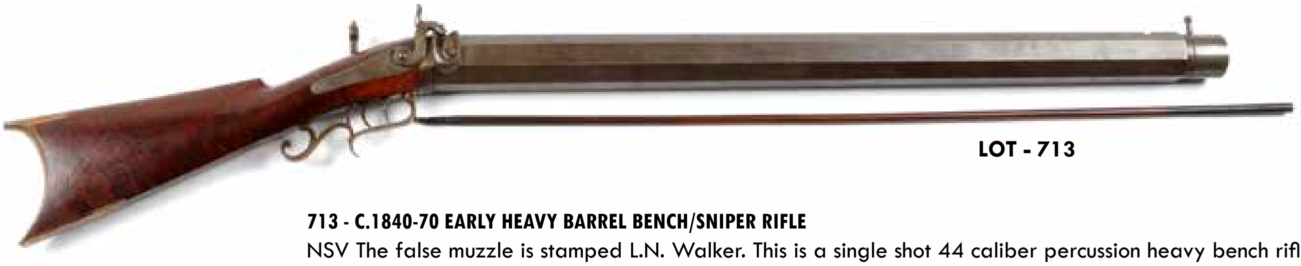
NSV This was the first regulation percussion ignition weapon made at the National Armory. It is also the last smooth bore weapon made in .69 caliber. Features a 42" barrel, three barrel bands, iron furniture and walnut stock. The sideplate is dated 1849 with U.S. eagle. Barrel is basically smooth brown patina except for the last 3" at breech show heavy pitting. There is a 1" piece of wood missing at right tang. U.S. marked buttplate. Original sling swivels, ramrod and nipple. Wood has fine cartouche on left side. 500.00 - 1,000.00



LOT - 712

712 - ROBBINS, KENDALL & LAWRENCE CONTRACT 1841 RIFLE.

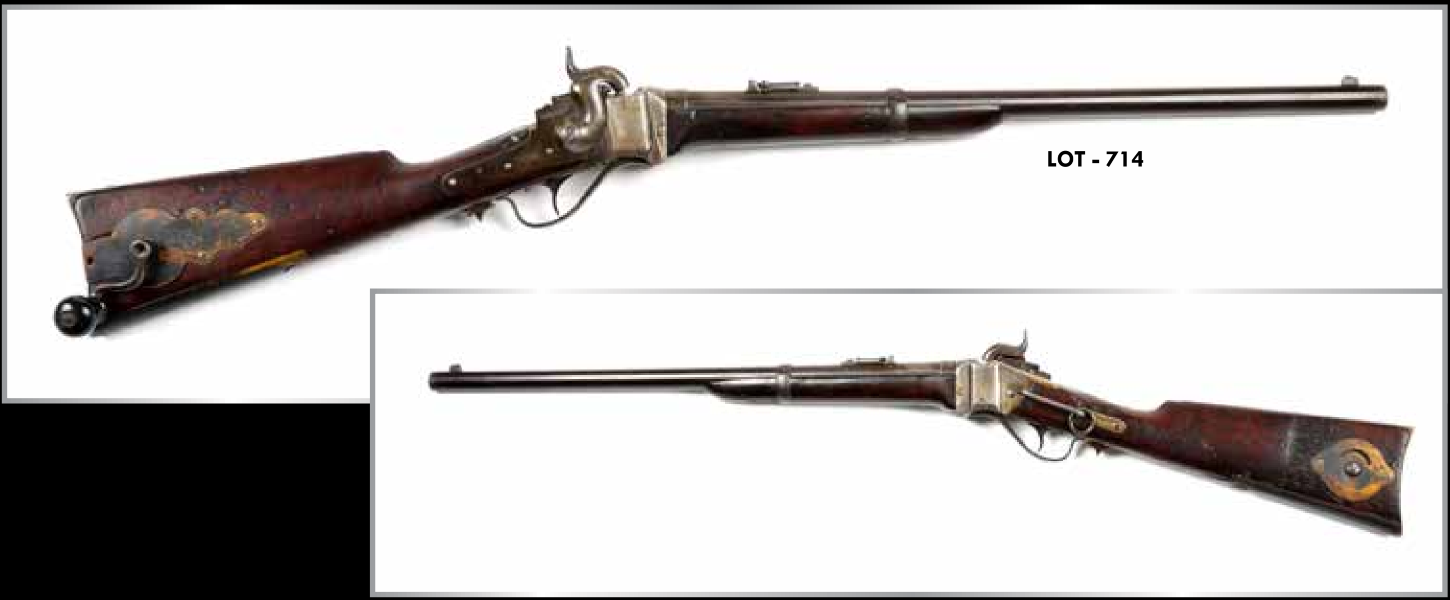
NSV Manufactured 1845 to 1848. Manufactured in Windsor, Vermont. Sideplate so marked and dated 1851. All other features are as standard for a Model 1841 U.S. percussion rifle, A.K.A. "Mississippi Rifle". It is a .54 caliber single shot percussion with 33" barrel and two barrel bands. Has brass mountings, brown barrel, lock is case colored with trumpet head brass tip steel ramrod. Large brass patchbox on right side. Walnut stock. Brass barrel band, nose cap, trigger guard and buttplate. Buttplate is stamped "U.S.". Barrel has "L.B.C. U.S. P" stamped at breech. Missing rear sight. Walnut stock has visible cartouche on left side. The walnut stock is excellent with no cracks. Barrel, sideplate and hammer are a beautiful smooth patina. Brass has not been cleaned or polished. Has the original nipple. Fine working order. A very nice above average example. 1,500.00 - 2,500.00



LOT - 713

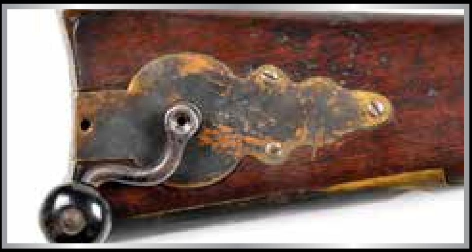
713 - C.1840-70 EARLY HEAVY BARREL BENCH/SNIPER RIFLE

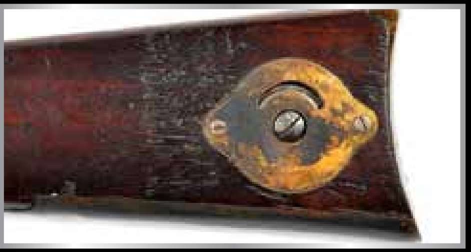
NSV The false muzzle is stamped L.N. Walker. This is a single shot 44 caliber percussion heavy bench rifle, the type utilize by snipers on both sides of the conflict between the North and the South (1861-1865). Rifle weighs approximately 36 pounds. It has a 31 - 1/2" full octagon barrel with a lovely stripped stock, no cracks or chips and a full brass crescent butt plate. It is a percussion ignition has double set triggers, ornate brass trigger guard, fine bore, perfect action and the original nipple. Set trigger works perfectly. Has the lolli-pop rear site and the front site slot is empty. Metal is basically smooth patina. The only maker mark we can find is on the false muzzle. L.N. Walker is most commonly associated with the Walker Hepburn rifles produced for Remington arms. We cannot ascertain whether Walker actually made this rifle or just the false muzzle, regardless, this is an extremely handsome heavy barreled rifle with the association to the snipers of the Civil War. 1,500.00 - 3,000.00

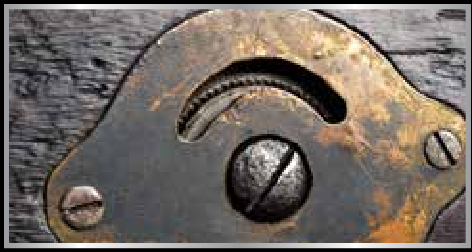


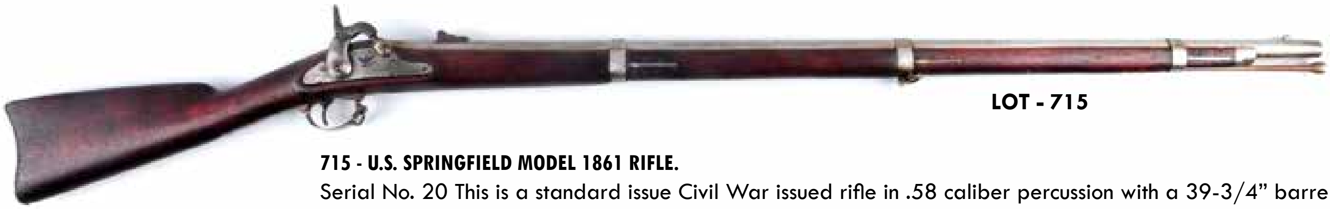
714 - RARE SHARPS NEW MODEL 1859 “COFFEE MILL” CARBINE.

Serial No. 62835 One of the scarcest and most sought after of all Civil War era Sharps carbines are those altered with the experimental grinding system set into the buttstock. All of these were experimental with work performed at the St. Louis Arsenal in 1864 to 1865. The carbine itself is a standard Model 1859 .52 caliber percussion with a 22” round barrel, oil finished walnut stocks, saddle ring bar on left side, military Lawrence patented rear sight with post and blade front. Left side of frame has 1848 patent date. All metal is a smooth grey patina with proper Sharps barrel stamp, minor freckling with some pitting on block and cartridge groove. The walnut stocks are very good, proud to metal, with no cracks or chips. No visible cartouche but “No. 2” stamped on right side of wrist and the top of comb. There is some minor abrasion on left side of stock. Fine bore and a perfect action. We have disassembled the mill attachment and the parts are stamped with the number “2” as well. The three milled attachments to include; the base (and both side plates) are made of brass and are similarly stamped with “2” on the inside. Every aspect of this carbine, with regards to the milling device have been inspected for purposeful manipulation with none to be noted. The “2” stamped on the parts and the stock are vintage, the aging and lack of cleaning clearly visable. This carbine was taken to the Denver Gun Show and was vetted by two of the most prominently known Sharps experts in the country, as well as several other antique gun experts. We are well aware of the controversy surrounding these carbines and it is a forgone conclusion that any Coffee Mill Sharps that were not in a collection prior to 1900 can only be vetted based on close inspection. According to historians, the Coffee Mill Parts remained at the St. Louis Armory until the 1920’s, at which time, an employee took a number of them and utilizing original Sharps carbines, installed the original milling works at that time and sold them as such. We offer the following information. All of the milling brass parts are original and vintage except the crank handle which is a period replacement. The internal parts and the “2” stamp is also vintage. The aging of the parts is original. This carbine was consigned from an 85 year old gentleman from Massachusetts, whom he had three weapons in his possession, none of which he had any definitive information as to how long they had been in the family or where they were acquired. To include a Colt 1860 Army long flute and a Model 1849 Pocket Model revolver, both of which were manufactured prior to 1865. Therefore, this is either an original Coffee Mills Sharps as assembled in St. Louis circa 1864, or, at the very least, assembled by the St. Louis employee in the 1920’s, with no way to determine which is correct. For the sake of accuracy, the Coffee Mill Sharps was an experimental model intended to grind corn, not coffee. Given the originality of the carbine, along with its aged parts and the circumstances surrounding its consignment, we feel this is an extremely fine example of one of the most talked about Civil War weapons ever manufactured. With no real track record on pricing, this is an extremely desirable martial arm that will find its own level. The documented Coffee Mill Sharps residing at Springfield Museum exhibits an iron grinding system, not brass as is the example. Since actual documented pre-1900 collection examples are virtually non-existent, we have no way to ascertain whether all were iron or brass, just that Springfield’s example is iron. 10,000.00 - 20,000.00





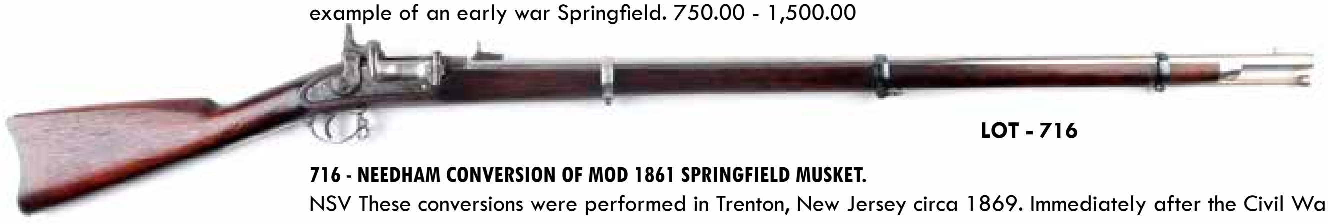




LOT - 715

715 - U.S. SPRINGFIELD MODEL 1861 RIFLE.

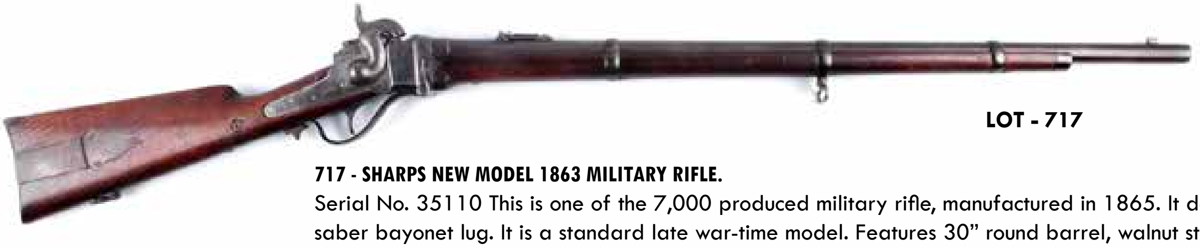
Serial No. 20 This is a standard issue Civil War issued rifle in .58 caliber percussion with a 39-3/4” barrel finished in the white. Has all proper U.S. stamps. Has the proper military rear sight and original nipple. Top of barrel is stamped “Eastover”. Sideplate is dated 1862. Sideplate and hammer are basically a gun metal grey with freckling. Both screws have some damage. The barrel exterior is extremely clean with just some brown age toning. Original walnut stock is excellent with usual war dings, but is not cracked, and has visible cartouche on left side. Strong rifled bore with some usual abrasion and should clean to fine. Original ramrod. A very nice example of an early war Springfield. 750.00 - 1,500.00



LOT - 716

716 - NEEDHAM CONVERSION OF MOD 1861 SPRINGFIELD MUSKET.

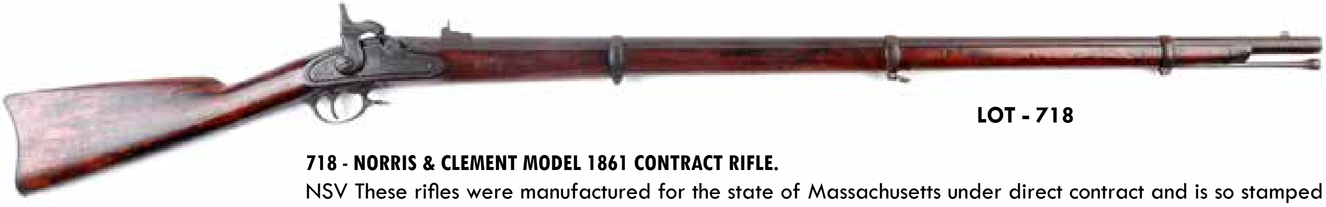
NSV These conversions were performed in Trenton, New Jersey circa 1869. Immediately after the Civil War, the Irish-American secret society, the Fenian Brotherhood, plotted to invade Canada. They purchased 4,200 muzzle loading Model 1861 rifled muskets from Alfred Jenks, the contractor of the M1861 Bridesburg Musket. They were distributed to the Fenian group, 600 of whom crossed the Canadian border in June 1866, defeating a company of Canadian Volunteers. They were arrested by U.S. authorities and their weapons confiscated, but were released and weapons returned. In 1869 they reorganized so they secretly rented premises in Trenton, New Jersey and converted these weapons using the Needham patent. Using these converted weapons, they again invaded Canada in 1870 via Vermont. 200 were captured and all arms were confiscated. They were later sold to Schuyler, Hartley & Graham of New York City. They were sold in various catalogs from 1884 to the 1920’s. Caliber is listed as .58 centerfire. That said, this rifle remains in excellent condition. Barrel measures 35-3/4” and is finished in the white. The sideplate is dated 1862 with the eagle and Bridesburg clearly visible. Hammer, sideplate, and frame are a pleasing mix of gun metal and soft brown patina. The walnut stocks are excellent, except there is a 4” crack on left side of forearm. Has three barrel bands, all U.S. stamped. Rear barrel band is in the white, the other two are blued. Original ramrod. Left side of stock is stamped “I.N.”. Buttplate stamped “U.S.”. Has a standard military Springfield rear sight. Strong clean bore. The barrel is clean, in the white, near mint, with very minor freckling. A very high condition and unusual rifle with a storied history. 500.00 - 1,000.00



LOT - 717

717 - SHARPS NEW MODEL 1863 MILITARY RIFLE.

Serial No. 35110 This is one of the 7,000 produced military rifle, manufactured in 1865. It does not have the saber bayonet lug. It is a standard late war-time model. Features 30” round barrel, walnut stock, iron furniture, .52 caliber percussion, three barrel bands, original sling swivels, patchbox on right side, a Lawrence patent rear sight and a block front with nickel blade. This gun is in all original condition. Metal is basically a smooth brown patina. Original nipple. Has two strong cartouche stamps on left side wrist. Forend has an old 4” hairline repaired crack otherwise the wood is extremely nice, never refinished and proud to metal. Bore has strong rifling with some minor abrasion. A wonderful, honest all original Civil War survivor. 2,000.00 - 3,500.00



LOT - 718

718 - NORRIS & CLEMENT MODEL 1861 CONTRACT RIFLE.

NSV These rifles were manufactured for the state of Massachusetts under direct contract and is so stamped on lock. They were manufactured 1863 to 1864 (this one dated 1863). Details are identical to a standard Model 1861. Features a 40” round barrel, .58 caliber percussion, standard folding military rear sight with original sling swivels and ramrod. All metal surfaces are a dark brown patina with light salt and pepper pitting on barrel. No visible cartouche. Original walnut stocks are very good, albeit there is a 3” crack on left side at front screw. Original nipple. Very good rifled bore with usual minor roughness. All proper U.S. stamped parts. Scarce Civil War contract rifled musket. 500.00 - 1,000.00

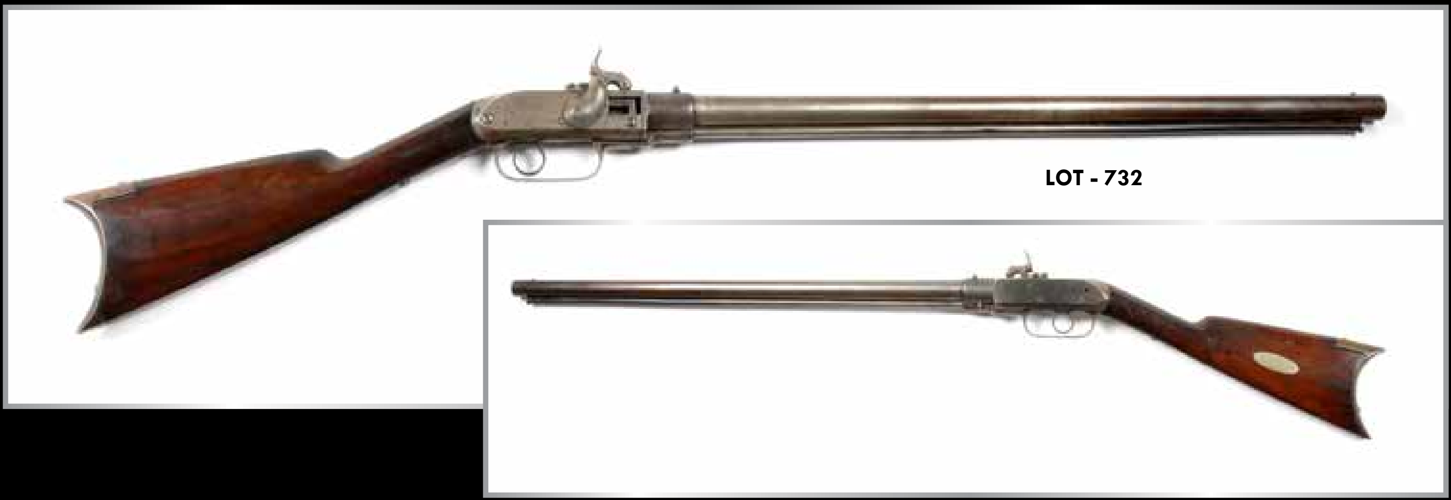
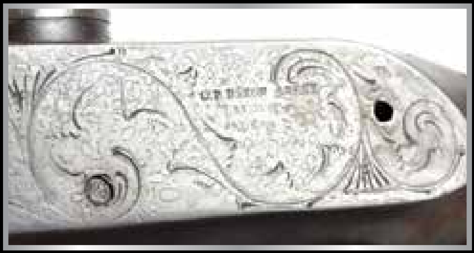
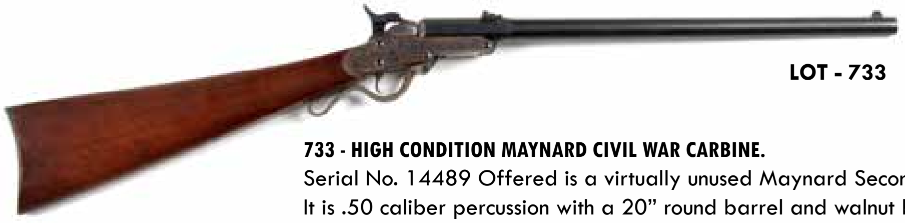
731 - COLT 1862 POLICE POCKET NAVY CONVERSION.
Serial No. 12650 Manufactured 1873 to 1875. This revolver is chambered for the .38 rimfire cartridge. Sports a 4-1/2" round barrel, five shot fluted cylinder. Approximately 6,500 of these revolvers were altered from the standard Model 1862 Police. This one has all matching numbers, including wedge and remains in near mint condition, retaining approximately 97% of the expertly reapplied finish (most likely done at time of conversion). Strap retains virtually all of the nickel finish, brilliant fire blue on screw heads, 80% brilliant case colors on frame and hammer and beautiful walnut grips. Perfect action. Strong clean bore. There are a couple spots of wear to the top of barrel and cylinder, otherwise it is in near mint condition. 1,400.00 - 2,800.00



732 - SCARCE JENNINGS REPEATING RIFLE.

Serial No. 395 This was the successor to the Hunt repeating rifle. This is a breach loading rifle manufactured 1850 to 1851. It is a single shot factory converted or made from, Jennings repeater parts. “Rocket Ball” cartridge loaded through right side of frame, ring trigger operated breach with automatic pill primer device. Has the small diameter magazine tube used for carrying the cleaning rod. Most were later altered to muzzle loading configuration so originals are extremely scarce. Collectors commonly called this the First Model, although that information is erroneous. This rifle is important to Winchester and Smith & Wesson collectors in the evolution of both the Winchester and Smith & Wesson Firearms companies in that it brought together the talents of B. Tyler Henry (Henry rifle fame), Horace Smith, and Daniel Wesson (of Smith & Wesson fame). It is basically the genesis of two of the greatest firearms corporations ever formed. As to the particulars of this rifle, it features a 26” heavy round barrel, blued metal finish, walnut buttstock, crescent steel buttplate, top exposed hammer and nipple ignition system, premier disc with light engraving on frame and breach of barrel. Left side of frame is stamped “OMROBBINS & LAWRENCE WINDSOR VT”. Dealer marked on left side of frame as follows, “C.P. DIXON AGENT”. All metal surfaces are basically a smooth brown clean patina. The ring trigger still retains traces of blue finish. Serial No. 395 stamped on lower tang. Walnut stock is free from any major cracks or chips. Left side of stock has a German nickel oval plaque that is not inscribed. Strong rifled bore. Bore measures approximately .60 caliber. Hammer has a firing pin that goes through the nipple and into the cartridge which is still intact. It is in working order, but one must be extremely careful in dry firing as the pin goes through the nipple and may strike off center thus breaking the original firing pin. It is believed that Jennings rifles, in all variations, were manufactured from 1848 through 1852, and number less than 1,000 manufactured and those in original unaltered condition are basically unheard of. This would be a cornerstone piece in any collection of Winchester and/or Smith & Wesson firearms. 15,000.00 - 25,000.00





LOT - 733

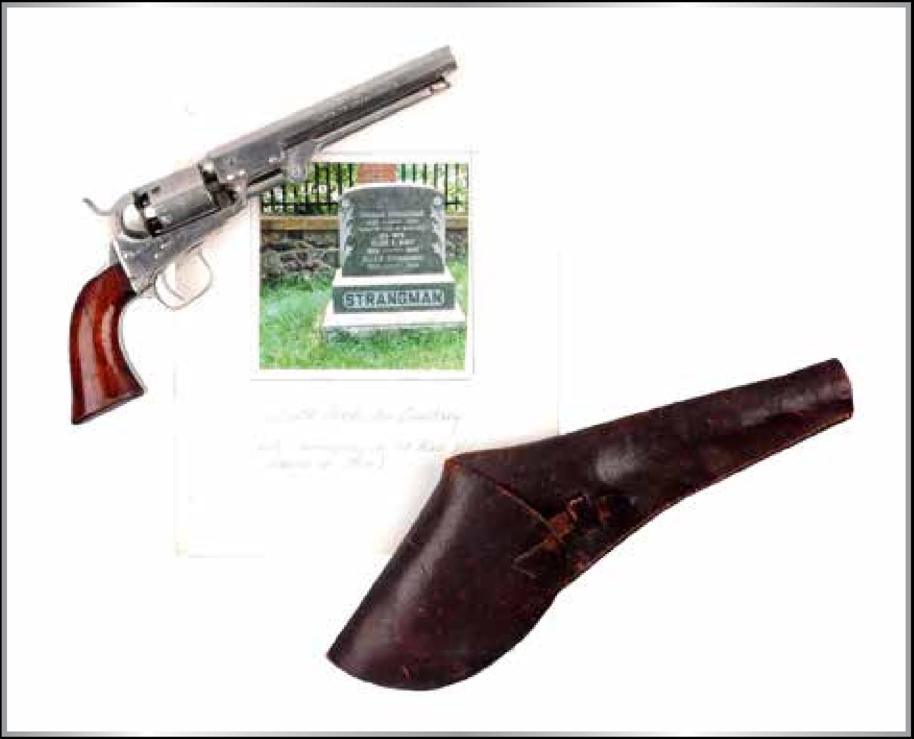
743 - SCARCE COLT MOD 1861 NAVY/NAVY CONVERSION REVOLVER
This revolver was manufactured in 1861. It was one of only 3,963 Naval marked martial revolvers manufactured. Subsequently, after its use during the Civil War, the gun was returned to the factory and converted to fire .38 centerfire cartridge. The gun has all matching numbers, albeit the cylinder bears both the numbers 1948 as well as 59622, having been renumbered by the factory when converted. The butt is stamped “U.S.N.” and the inspector stamp R.W.M. with an anchor is stamped under the barrel. Standard features include a 7-1/2” round barrel, six shot unfluted cylinder with Naval battle scene, walnut grips, brass straps, case colored frame and blued barrel and cylinder. The gun has survived in excellent condition. The finish has turned a smooth brown-grey patina with freckling. Brass has never been cleaned. Grip panels are very good with no cracks or chips, but are shy at the toe. Action locks up tight. Strong bore. These Navy/Navy Models saw extensive service during the Civil War and, given their low production and survival rate, are extremely difficult to find. The conversions continued to see service on the early post Civil War clipper ships and frigates into the era of the swing out cylinder revolvers. 3,500.00 - 5,500.00



744 - INSCRIBED-PRES. COLT MODEL 1849 POCKET REVOLVER.

Serial No. 200650 According to the Colt Factory Research letter, this revolver was shipped to Wm. Read & Sons in Boston, Massachusetts on April 20th, 1861 in a 50 gun shipment. It letters as a .31 caliber with 6” barrel, blued finish and wood stocks. This is where the interesting aspect of this revolver begins. Thomas Strangman enlisted in the 1st Massachusetts Volunteer Infantry on July 1st, 1861 in Boston, three months after this revolver was sent to William Read. Enlisted men were not issued Government revolvers and most new recruits purchased small arms for their personal protection during the Great Conflict. Mr. Strangman, once enlisted, soon rose to the rank of Sergeant at the head of his company (E 1st Regiment) under the famous general Joe Hooker. He was wounded in his first skirmish on June 26th, 1862 but returned quickly to duty where he served honorably until he was mustered out on May 25th of 1864. He was locally famed as a carriage maker and lived until 1909. It is possible that Mr. Strangman purchased this side arm and carried it as personal protection during the war, but this is speculation. What is known is that this revolver was dealer engraved and fully nickel plated and given to Thomas Strangman by the “90 Hose Fire Brigade” as a gift and is so inscribed on backstrap. On the butt is engraved “Milton, May 1861” which coincides with the town in which Mr. Strangman lived and the date of his enlistment. In addition, all of the battles of the Civil War in which the 1st Massachusetts Volunteer Infantry had been involved have been block engraved on the octagon barrel flats to include: (right side) Blackburns Ford, Bull Run, Yorktown, Williamsburg, Fair Oaks, Savage Station, Glendale, and Malvern Hill 1st. Top flat: Malvern Hill 2nd, Bristow Station, Chantilly, Fredericksburg, Chancellorsville and Gettysburg. Left flat: Wapping Heights, Locusts Grove, Mine Run, Wilderness, Spotsylvania and Fredericksburg Road. Several of these battles were amongst the bloodiest and most noteworthy battles of the War. The gun remains in lovely near mint condition as engraved, inscribed and plated retaining approximately 95% of this finish. The Colt patent on left side of frame is a bit thin. Has all matching numbers including wedge and loading lever. The cylinder scene remains partially visible. Original nipples. Action is perfect. Bore is very good. Original varnished one piece walnut grips are very good with finish loss and minor chipping on high edges. Colt barrel address is perfect. Gun is a full nickel plate. The gun is accompanied by an original period flap holster and an original hard cover book entitled “The First Massachusetts Regiment” by Warran Cudworth who was the regiment chaplain. Mr. Strangman is listed several times. The book is filled with the exploits of this company throughout the war. Also included are photocopies of Mr. Strangman’s diary in 1861 and other documents pertaining to his life and death. Seldom is a revolver with such an interesting history and inscription ID’d to a combatant of so many bloody battles. Truly, a piece of Civil War history and a silent witness to the greatest cataclysmic event of the 19th century. 5,000.00 - 10,000.00

745 - HISTORIC COLT MODEL 1860 "LONG-FLUTE" REVOLVER.
Serial No. 4218 This revolver was manufactured in 1861 and there are no Colt factory records on this early serial number. It is a rare Colt Model 1860 Army revolver, six shot, .44 caliber percussion with the scarce patented long flute cylinder. Other features include an 8" barrel, varnished walnut one piece grips, single action, shoulder stock cut. It is not martially marked. It is unknown whether this revolver left the factory with the nickel plated finish or whether this work was performed by a dealer such as Hartley & Graham or another large retailer of the period. It is readily evident that the nickel finish is of the original period and quality as all factory stamps are strong and void of nickel within the stampings. Revolver has all matching numbers including wedge. Action is perfect. Lock up is tight. Bore is strong with some light abrasion. The gun retains approximately 95% of this original nickel finish with some light freckling and high edge wear only. All the nipples are intact and the original walnut grips display only minor high edge finish wear with some minor bruises. As if the condition of this revolver, along with the scarcity of the long flute model, was not enough to spark an interest amongst Colt collectors, the history of this revolver definitely sets this example at a high water mark. This revolver was the personal side arm of General George H. Gordon of the 2nd Massachusetts Volunteer Infantry, Union Army. The gun comes with lineage of the transfer of ownership that begins with a letter from Mrs. Henry Scott whose husband was a nephew of General Gordon. At the time of purchase, two of the chambers were loaded with powder and ball. This revolver was featured in an article in the Gun Report dated March of 1985 by Dr. Joseph F. Ciano detailing not only this revolver by serial number, but also the exploits of General Gordon. Gordon was a graduate of West Point in the class of 1846. Fellow graduates of that year include: General Reno, General George McClellan, General Stonewall Jackson, General George Picket, and General A.P. Hill. Gordon's first battle experience came during the Mexican War under the tutelage of General Winfield Scott. After the Mexican War, he went back to his hometown near Boston to practice law. At the outbreak of hostilities between the North and the South in 1861, he raised the 2nd Massachusetts Regiment of Volunteers. One of his officers was Robert Gould Shaw, whose statue resides at the Boston Commons. He was the famous leader of black troops who lost his life at Fort Wagner. This incident is best remembered today for the movie entitled "Glory" with Matthew Broderick. Gordon repelled his famous Confederate classmate Stonewall Jackson in the Shenandoah Valley Campaign in 1861. This occurred early in the war and he was promoted to Brigadier general as a result. Other notable battles that Gordon participated include: The First Battle of Winchester, the Second Battle of Bull Run and one of the bloodiest events of the Civil War, the Battle of Antietam. Original books written by General Gordon include: The Second Massachusetts & Stonewall Jackson, War Diary of Events in the War of the Great Rebellion 1863-1865, The Army of Virginia 1862 (published 1880) and Brook Farm to Cedar Mountain in the War of the Rebellion 1861-1862. Also included are books entitled "The Second Massachusetts Infantry" by James Walker 1867, "Potomac & the Rapidan" by A.H. Quint, (chaplain 2nd Massachusetts) 1864 and a "Record of the 2nd Massachusetts" by A.H. Quint (fly page has picture of Brevette Major General George H. Gordon). There is a hard cover book entitled "Class of 1846 West Point to Appomattox" by John Waugh, author signed. A book entitled "Civil War Hero: The Life of General George H. Gordon" is also included. There are also four vintage paperbacks. This revolver is accompanied by all of the above listed original books as well as CDV's and a binder of pertinent paperwork. Rarely does such a fine and rare firearm with a storied history become available. A monumental weapon with Civil War history. 8,000.00 - 12,000.00

747 - COLT MODEL 1860 THUER CONVERSION REVOLVER.
Serial No. 179740 Gun was manufactured in 1869 as a standard Colt Model 1860 Army revolver. Features an 8" round barrel, .44 caliber, single action, six shot. It has been altered to fire cartridges using the Thuer conversion system, which consisted of cutting back the cylinder, fitting a special Thuer conversion collar and grooving the right side of frame. The cylinder and collar are typical Thuer per McDowell book. There is a "31" and a "0" on the back of the cylinder as well as the back of collar. Collar is dated September 15th, 1868. It has the script letter "E". All numbers matching on gun except cylinder not readable and wedge not numbered. The plunger is not threaded. A few original examples exist without threading but usually indicates an outside-of-the-factory conversion. Gun is basically patina with some minor areas of freckling. Cylinder retains traces of scene. Factory stamps are fine. Left side of barrel has some light corrosion. Stocks are very good with most of the original varnish, shy at toe and some minor chips. Indexes fine. Strong bore with some light corrosion. 1,500.00 - 2,500.00

757 - CASED COLT MODEL 1849 POCKET MODEL REVOLVER.
Serial No. 85155 This revolver was manufactured in 1854. Standard features on this model include 6” octagon barrel, five shot, single action, .31 percussion caliber. This is an early first type manufactured with the small trigger guard. The stagecoach cylinder scene is excellent and near fully visible. Every number on this revolver matches including the wedge, loading lever and cylinder. The rotation and lockup is perfect. Very good bore. Extremely strong two-line New York City barrel address. The metal surfaces are basically a smooth gun metal patina with no pitting. The backstrap and trigger guard retain ample amounts of nickel finish, albeit appear to have been refinished. The one piece walnut stocks are very good, albeit they have a small chip at left front toe and are a bit shy to metal, having been redone at one time. This revolver is cased in a vintage wooden display box with an instruction sheet that has been adhered to the inside cover and was apparently cut out and reapplied (not factory). While the case appears to be contemporary to the revolver, it is not a Colt case. It is accompanied by an original unmarked powder flask, original Colt stamped two cavity bullet mold (one conical, one round), an original Eley cap tin with caps and 14 vintage round lead balls. Extremely handsome, very early Colt Model 1849. 1,400.00 - 2,200.00

773 - COLT MOD 1878 D.A. REVOLVER (FAT GRIP J.P. LOWER).
Serial No. 1948 This is a standard Model 1878 Colt double action revolver chambered for the .45 long Colt cartridge, six shot, fluted cylinder, double action with a 7-1/2" barrel and factory nickel finish. It was manufactured in 1881 and is referred to by collectors as the "Fat Grip" as it has the early large grip frame. What makes this revolver historically significant is that it is stamped on the left side of frame "J.P. Lower" who operated a gun shop in Denver, Colorado from the 1870's through the turn of the century. Arguably, one of the most famous gun dealers of the Old West, supplying guns to some of the most notorious figures in the annals of Western history and folklore. His clients included Buffalo Bill Cody. The gun itself remains in excellent, all original, condition. Barrel retains approximately 40% original factory nickel with the balance a pleasing gun metal brown patina. The cylinder retains approximately 75% original factory nickel while the frame and straps retain approximately 80% original nickel. There are still traces of fire blue on the back of the hammer and trigger as well as some of the screws. Action locks up tight. Timing is perfect both single and double action. Bore is near mint. Grips are excellent with sharp checkering. A wonderful, totally honest big bore sent to a very famous dealer. 3,000.00 - 5,000.00

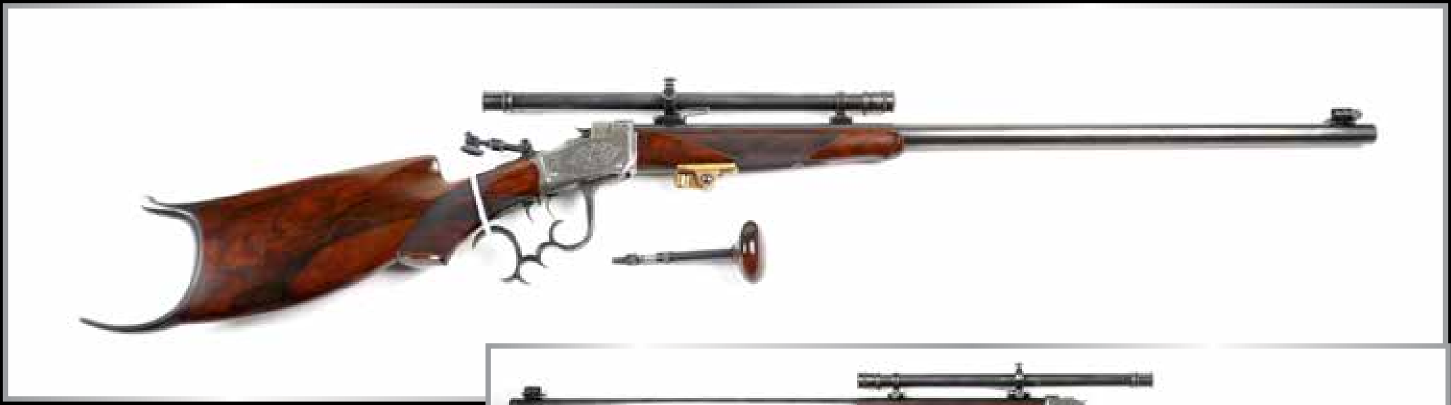
Even the nose cap retains a majority of the blue finish. Lovely little lever action. 700.00 - 1,200.00



787 - WINCHESTER POPE CUSTOM HIGH WALL S.S. RIFLE.

Serial No. 17 Gun features a 30" round barrel chambered for the .22 LR with a bright and excellent bore. The barrel is Jersey City Pope No. 691 and is marked on the bottom "691 B 2 15.9 2.8.27 H.M. POPE". It is also marked on top ahead of the scope blocks "H.M. POPE". This rifle features many Pope improvements and has been engraved and stocked in the highest quality. The Pope alterations, in addition to barreling, include milling the frame, lightening the hammer, altering the coil mainspring, and fitting scope blocks. The above alterations are listed in an original Pope invoice dated April 2nd, 1927 which is part of the Pope archives which are owned by the ASSRA. The rifle is also equipped with Pope adjustable double set triggers and a Pope style finger loop lever and palm rest. The lower tang has been shortened and the section with the serial number is no longer present. The action is beautifully engraved in very nice quality scroll and has been left bright giving a very pleasing appearance. The ring of the action is stippled in the finest of patterns and the lever, sight base and trigger plate all show light scroll engraving. The "H.M. POPE" barrel marking has a fancy scroll pattern engraved around it. The rifle has been stocked in beautifully figured walnut which was expertly executed in a very fine checkering along with a wonderful shadowline cheek piece. The pistol grip and the forend tip both bear ebony inlays and the rifle wears a perfectly fitted Helm style buttplate. The rifle is sighted with a wind gauge globe front and windage adjustable Pope tang sight along with a Winchester A5 scope and original mounts. In the book entitled "HM. Pope" by Warren Greatbatch, page 263 the identical style Pope lever and Swiss buttplate. On page 394, you can see the identical Pope palm rest, and on page 412, the Pope tang sight which was manufactured in conjunction with Stevens, is also pictured. The falling block exhibits traces of the original case colors. The entire gun remains in almost near new condition. Stock is near new with sharp checkering and just a light surface scratch. Barrel retains virtually all of the fine blue finish. Tang sight exhibits all of the fire blue finish. The scope retains approximately 85% original Winchester blue with perfect optics. All screws are engraved. It is an understatement to write that Pope built the finest deluxe single shot sporting rifles. Given the condition, rarity, and quality of this rifle, it elevates this masterpiece to a level that goes far beyond its purpose as a firearm. It was an expensive proposition to have a custom Pope rifle during the era of manufacture and only the dedicated and lucky few were ever able to own such a weapon. The same holds true even today. One of the finest Pope rifles extant. 10,000.00 - 20,000.00

788 - **HIGH COND. WINCHESTER 52 SPORTING RIFLE (1952).

Serial No. 77026B Offered is one of the more desirable Winchesters manufactured shortly after the war, this example made in 1952. The Model 52 Sporter was one of the finest quality .22 caliber sporting rifles ever manufactured. Due to the high price and myriad of less expensive competition at the time, these guns were sold in limited numbers to only the wealthiest or most devoted riflemen of the era. This example remains in near mint all original condition as manufactured. Features include a 24" barrel, blued finish, deluxe checkered dark walnut stock, rollover cheek piece, black forend tip, black metal pistol grip, checkered steel buttplate, is equipped with super grade quick detachable sling swivels and a Lyman adjustable target rear peep sight. There is no slot cut in rear of barrel and the front sight is a ramp with gold bead and hood. The metal retains virtually all of the original finish, albeit there is a bit of wear to the base of the original Winchester magazine. Wood is near mint, retaining sharp checkering and all of the original finish, with exception to a couple of extremely minor impressions. Even the trigger guard retains all of the original factory blue. The bore and action are as new. It would be virtually impossible to improve upon the condition of this fine rifle. 3,500.00 - 5,500.00

793 - RARE COLT MOD 1860 12 STOP RICHARDS CONV. REVOLVER
Serial No. 199369 This revolver was originally a percussion .44 caliber that was converted circa 1871-72 to fire the .44 Colt cartridge. It is the rare 12 stop Richards conversion, the very first Richards produced by converting percussion revolvers using original percussion barrels. Gun has all matching numbers, except wedge not numbered. Cylinder number matches. None of the stops have broken through. It was originally a blued and case colored gun, far rarer than the nickel guns. The cylinder, barrel and backstrap are basically a smooth gun metal grey with some flashes of blue in the recesses. The right side of the frame has approximately 30% original case colors. Left side exhibits approximately 20% case colors and the hammer has strong case colors. Original brass trigger guard. Gun sports a pair of vintage eagle/shield carved one piece ivory grips that have shrunk a bit to the frame. Action is perfect. Strong bore. An extremely fine blued 12 stop Richards revolver produced just prior to the introduction of the Colt Single Action Army. A prize in any Old West revolver collection. 3,500.00 - 5,500.00

This pair of revolvers is near new, never fired and in the original cardboard shipping boxes numbered to the guns. Left side of frames bear the “G.H.D.” inspector marks. They are numbered 32137 and 32138. Each revolver comes with an LOA from the Alabama National Guard. According to the letter, these are two of 140 Colt Commando revolvers that were shipped new, in the grease, unfired and un-issued in their original shipping boxes to the Alabama National Guard. They were donated by the Guard to the Marion Military Institute Museum in March of 2011. These revolvers sat untouched in Alabama National Guard storage for over 68 years. An interesting near mint consecutive set of documented Colt Commandos.

814 - FULL FACTORY NICKEL MODEL 1873 LEVER ACTION RIFLE.

Serial No. 143227A According to the factory letter, this rifle was shipped December 22nd, 1883 as follows: Rifle, .38 caliber (.38-40), barrel shape half octagon, set trigger, nickel. This extremely rare rifle conforms with factory letter. Features include 24" half octagon barrel, full magazine, full factory nickel plate finish, walnut grips and crescent rifle buttplate. This rifle and every metal part with the exception to the set trigger, is factory nickel plated. The oil finished walnut stocks are excellent with no cracks or chips and only a couple of minor bumps. The rifle appears to have virtually all of the nickel plating still intact, but upon close inspection you will see scattered areas where the metal has been cleaned to blend in perfectly with the nickel finish. The markings are strong and void of any nickel finish inside. There are scattered areas of light freckling, pin prick pitting, and oxidation. All screw heads are perfect and untouched. Strong clean bore. Perfect action. Any full factory nickel plated Winchester lever action rifle is extremely scarce and high condition examples are even scarcer. A very special rifle in a large caliber. 20,000.00 - 30,000.00

817 - HIGH CONDITION WINCHESTER MOD 1873 .22 SHORT RIFLE

Serial No. 352012B According to the factory letter, this rifle was shipped September 16th, 1890. Listed as rifle, .22, barrel type: round, trigger: plain. This particular rifle is chambered for the scarce .22 short rimfire cartridge and is in extremely high, all original, factory condition. Sports a 24" round barrel, full magazine, blued finish, walnut stocks, crescent steel buttplate, case colored hammer and lever with sporting front and rear sights. This is one of the highest condition Model 73 .22 caliber rifles this writer has seen. The barrel and tube retain approximately 97% of the original factory blue, thinning just a bit at muzzle. The nose cap and retaining band still retain approximately 70% of the original blue. Frame retains approximately 90% of the brilliant high polish factory blue with minor high edge wear and some brown toning at back of receiver. Dust cover retains approximately 40% blue. Brilliant case colors still evident on hammer with traces on lever. The buttplate retains approximately 90% brilliant re-applied blue. All screw heads are perfect and un-marred. Brass carrier has never been cleaned or polished. The oil finished stocks are near mint, with no cracks or chips, proud to metal, perfect fit with only some minor finish loss on high edges of forearm and minor dings. Rifle sports a fully adjustable patented tang sight. The top of the receiver, at breach, has a few minor impressions. A "P.W." inspector mark is stamped on top of frame and barrel which would indicate the gun went back to factory for some repairs after 1905 but was never refinished. All markings are as strong as when applied. Fine bore. Perfect action. Simply an incredible example of a very scarce 1873 small caliber rifle. 4,000.00 - 8,000.00

Serial No. 270766C Collectors have always looked upon custom rifles as being works of art, yet for years pistols and revolvers that have been re-worked by the foremost custom gunsmiths were often referred to as ruined. In the last few years, these customized hand guns that have been modified by some of the greatest gunsmiths of our time are finally being recognized for the true masterpieces that they are. This is one such gun. It started off life as a standard Colt Model 1911 A1 commercial model in 1956. It was then sent to the famous shop of J. F. Clark in Shreveport, Louisiana. where he worked his magic. His name and address, along with No. 766, is stamped on the underside of this lot. The barrel has a C on the lug and the No. 9479 is visible on top of the barrel through the port. The top of the slide sports a Bo-Mar patent extended rib with adjustable rear sight. The front grip strap has been stippled as is the checkered arched mainspring housing. The action has been polished and fitted. Gun is chambered for the .45 ACP cartridge, has a checkered hammer, wide aluminum trigger shoe, a serrated slide stop and safety. Wonderful example from one of the most famous pistolsmiths of his time. The gun retains virtually all of the blued finished that was reapplied at time of conversion. 800.00 - 1,500.00

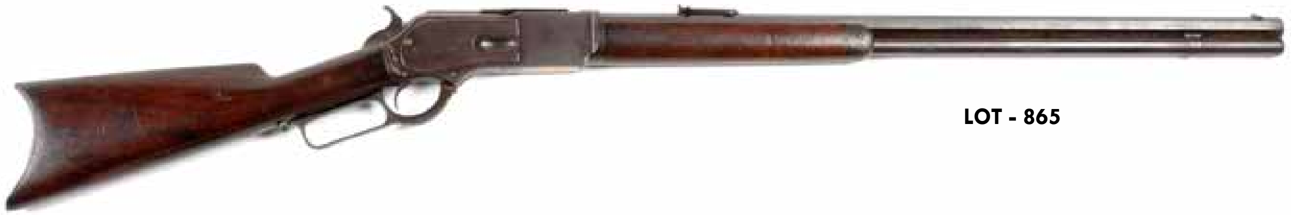
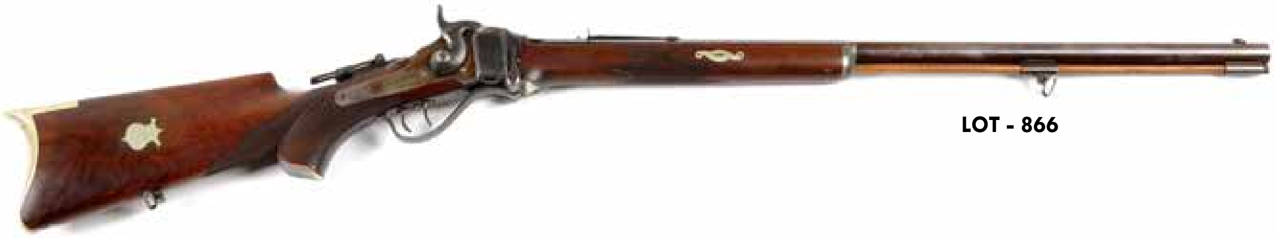
No. 8300 stamped on barrel, frame, bolt, receiver nut, safety and all screws. Has Imperial inspection stamps at base. Stock is in excellent condition with no cracks or chips, just a couple minor dings and a wood tang plug. Barrel retains a pleasing mix of blue turning patina. Receiver is grey. Strong clean bore. Perfect action. This is a wonderful example of an all matching 1871 Mauser. 400.00 - 600.00



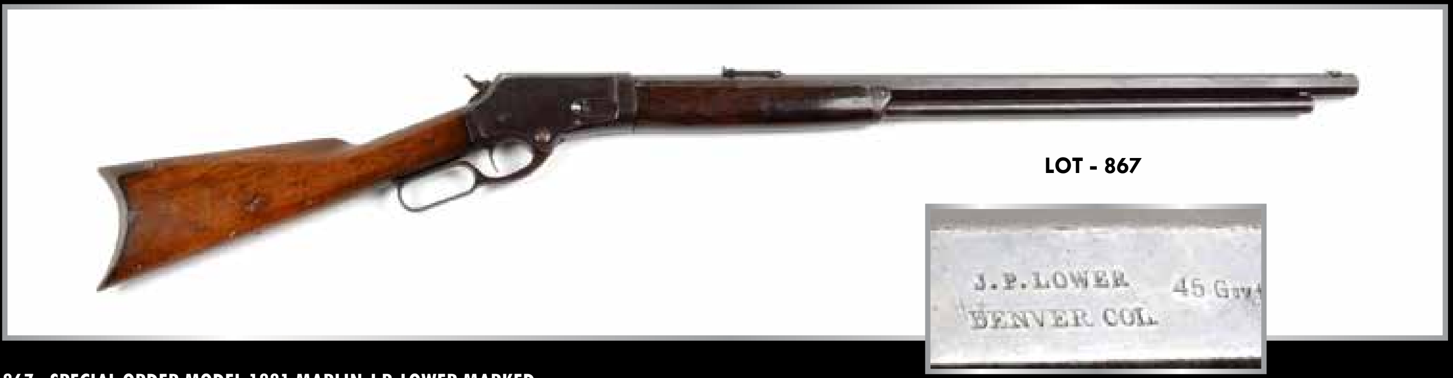
LOT - 865

865 - WINCHESTER MODEL 1876 LEVER ACTION RIFLE.
Serial No. 30227 This rifle was manufactured in 1882. It is standard in all respects with a 28” full octagon barrel, full magazine, blued finish, walnut stocks and chambered for the 45-60 cartridge. The walnut stocks are excellent with no major chips nor cracks, albeit the wood is a bit shy at tang. Overall metal is a smooth patina with sharp factory stamps. Has a blade front site with the Winchester 1876 folding ladder rear. Has a fine action. Very good rifle with some minor roughness. A nice honest old west big bore rifle. 1,500.00 - 2,500.00



LOT - 866

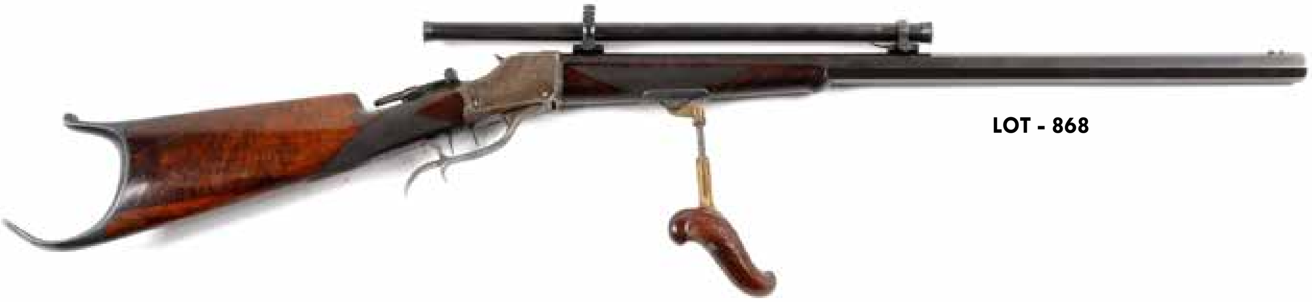
866 - ORIGINAL GEMMER STYLE MODEL 1874 SHARPS RIFLE.
This is an original rifle built during the period in a style that is popularly known as the “Gemmer” style or type. The basis of this rifle is an 1874 Sharps Sporting Model receiver that has been re-configured into a rifle profile similar to the Hawkin rifles of the 1850’s. This rifle sports a 27-7/8” half octagon barrel with a decorative collar at breach and turn. The rear stock has a pistol grip with the bottom flare of an 1878 model with deluxe checkering, German nickel inlays on left and right and a German nickel plated crescent buttplate. The checkered forearm has a pewter tip and a barrel escutcheon. Rod retaining thimbles attached to barrel with an oak cleaning rod and sling swivels. Rifle also features double set triggers and a long range tang rear sight. Front and rear sights are standard sporting type. Barrel has no markings. Left side of frame is stamped “C. Sharps Patent September 12th, 1848”. The letter “E” and numbers “61” and “2” are on the tang sight. The wood is in near mint beautiful condition. Barrel is a nice mix of blue-brown patina. Frame retains approximately 30-50% bright case colors as reapplied at time of conversion. Checkering is sharp as new. Bore is mint. Action is perfect. No caliber marking visible but bore measures to .40 and should be chamber cast to get an accurate measurement. Extremely lovely and high condition Gemmer style Sharps sporting rifle. 3,000.00 - 6,000.00



LOT - 867

867 - SPECIAL ORDER MODEL 1881 MARLIN J.P. LOWER MARKED

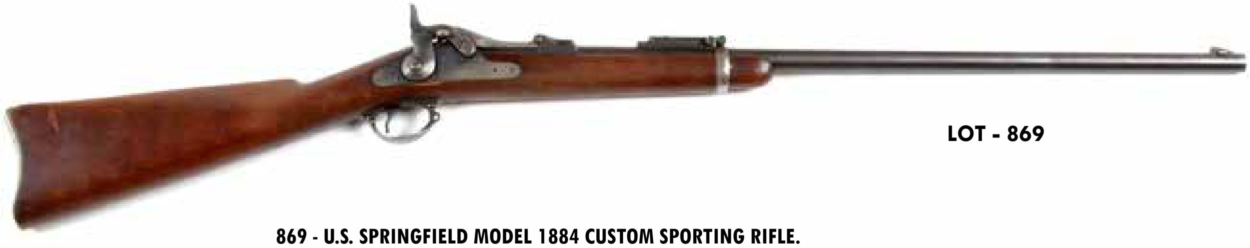
Serial No. 7839 The factory letter states that this rifle was shipped on April 16th, 1884 with a 30" octagon barrel in caliber .45-70. This special order rifle features a 30" extra heavy full octagon barrel, 28" standard magazine tube, chambered for the .45-govt-70 cartridge, a German silver front blade sporting sight, walnut stocks and crescent buttplate. Top barrel flat is stamped "J.P. Lower Denver Col." and has the 1876 dated folding ladder rear sight. As to condition, this rifle is basically brown patina with some original blue showing through. The walnut stocks are very good, with usual bumps and dings and a small chip on forend but is still solid. It appears to have an added coat of finish and is a bit shy to metal. There are two magazine hanger dove-tails. It is in fine working order, rifling is well defined with the typical abrasion caused by black powder. Has special order large forend to accommodate the extra heavy barrel. This gun has seen much use on the Frontier. The mere mention of the famed Western dealer solidifies its use on the Frontier during the turbulent 1880's. This rifle is an extremely early example, manufactured in 1884. Given the special order features and the historical destination, this is a very intriguing big bore Marlin rifle. 2,500.00 - 5,500.00



LOT - 868

868 - A.H. PACHMAYR CUSTOM WINCHESTER HIGH WALL RIFLE.

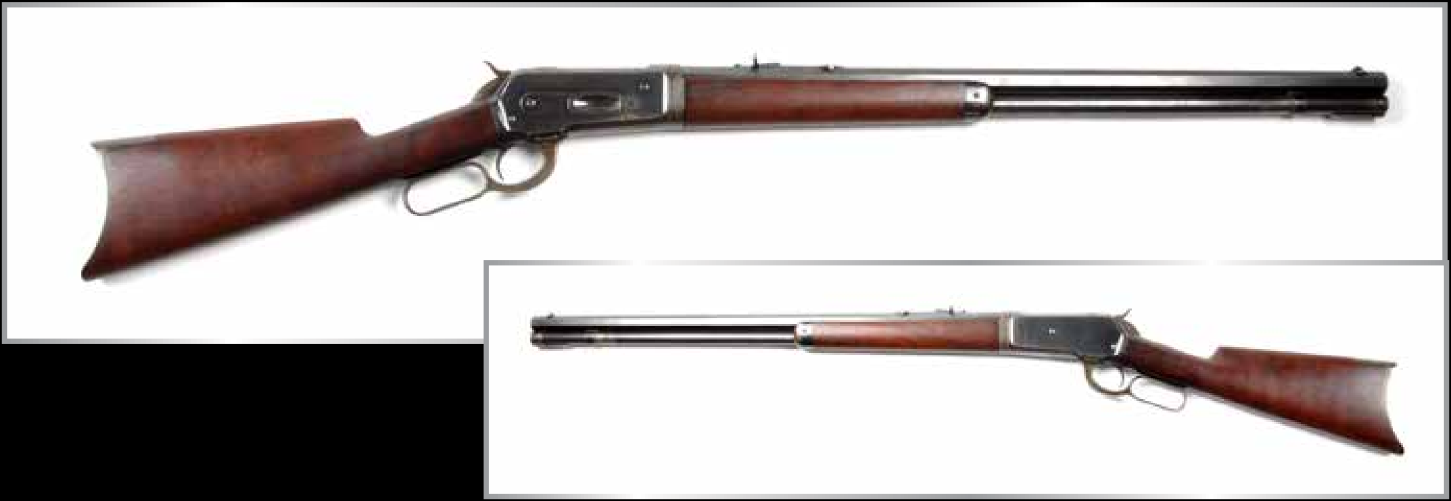
Serial No. 8411 The frame was manufactured in 1887. It was built into a custom rifle by famed California gunsmith A.H. Pachmayr of Los Angeles and is so stamped on barrel. Pachmayr was famous in the 1920's for his custom rifles. We cannot find the caliber markings, but the bore measures out at .30 and would need a chamber cast to accurately determine. Features include 28-3/4" full heavy octagon barrel. Barrel has three exposed tap holes for tube scope and now sports a Stevens No. 438 Model scope with adjustable Stevens mounts. The spirit level front sight base is present, sight is missing. There is no slot cut for rear sight. Has an original tang sight installed. Features deluxe straight grip checkered stocks with large hook Swiss buttplate, double set adjustable triggers, custom palm rest and a custom trigger guard. Rifle remains in excellent condition. Barrel retains 95% of the original blue. Frame has 20-30% of the original brilliant case colors. Stock exhibits lovely grain with a high gloss oil finish and fine checkering with no cracks or chips. Set triggers work perfectly. Bore is excellent. Extremely nice condition high quality custom target rifle. 1,500.00 - 3,000.00



LOT - 869

869 - U.S. SPRINGFIELD MODEL 1884 CUSTOM SPORTING RIFLE.

Serial No. 389769 This sporting rifle was assembled utilizing an 1884 Trapdoor. It is chambered for the standard .45-70 cartridge. Barrel is 26-3//4" with a dove tail sporting blade front sight, standard 1884 rear sight, and "VP" eagle head proof. Retains one barrel band. Stock shortened and contoured 1-3/4" from band. Left side of stock stamped "C.K.". The rifle remains in excellent condition. Barrel retains approximately 85% of the blue finish starting to plum. Extremely nice case colors on block. Perfect action. Mint bore. Wood is near mint with no cracks or chips, just some usual dents. Even the trigger guard retains approximately 70% original blue. Extremely fine condition overall of a period altered Trapdoor sporting rifle. More of these types of rifles saw use on the Western frontier than any other model manufactured. 400.00 - 600.00



870 - HIGH CONDITION WINCHESTER MOD 1886 TAKEDOWN RIFLE.

Serial No. 94940 The factory letter indicates that this rifle was shipped from warehouse on April 24th, 1895 as follows: Rifle, caliber .45-70, barrel type octagon, trigger; plain, takedown. This letter confirms every characteristic of this rifle which features 26” full octagon barrel, full magazine, Winchester sporting front and rear sights, takedown, blued finish, walnut stocks, crescent steel buttplate and case colored hammer and lever. This rifle remains in phenomenal, all original, condition. All standard takedown rifles of this era features blued receivers and rarely does one surface in such high original condition. The barrel and tube retains approximately 98% of the original factory blue finish with strong factory stamps and the only real wear on the tube from takedown procedure. The left side of frame retains approximately 90% of the brilliant high polish factory blue. Right side of frame retains approximately 85% original factory blue. Bolt retains 90% original blue. Loading gate retains 80% original blue. Strong case colors on hammer and lever. The buttplate colors have toned out. All original blue remains on tang. Takedown ring is basically blue-brown patina, as is bottom of frame (from carry). Oil finished walnut stocks are near mint with no cracks or chips with nary a ding anywhere on the wood. Mint bore and action. Given the condition and caliber of this takedown rifle, this is an exceptional example that would be hard to improve upon.

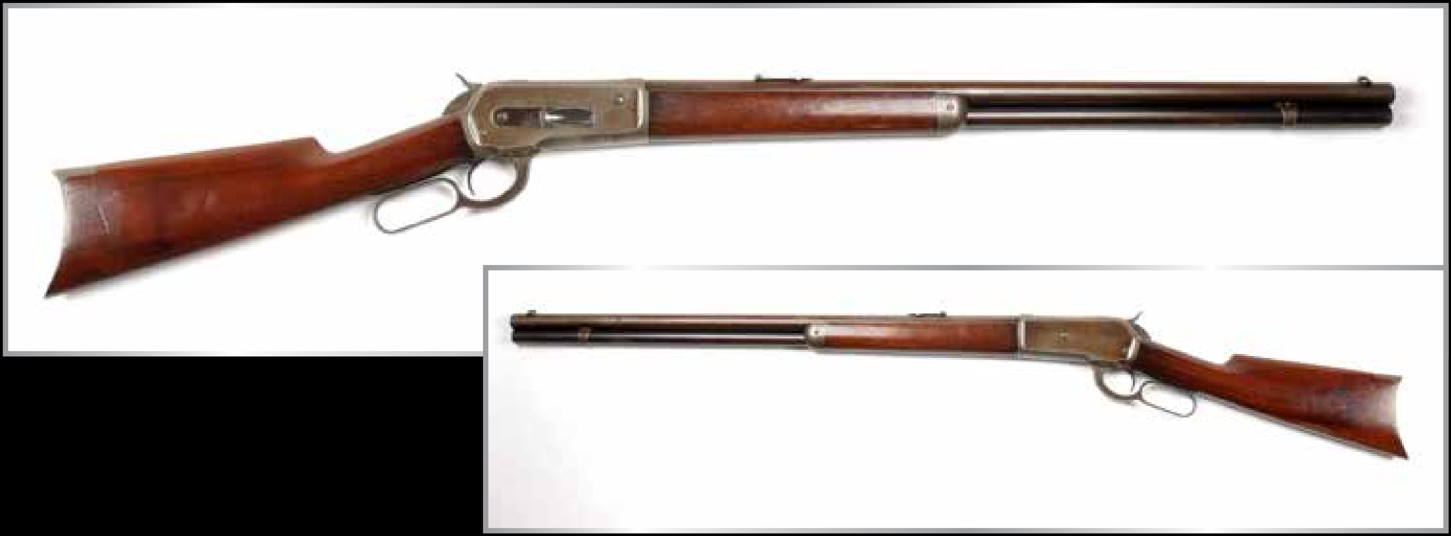
LOT - 871



871 - SCARCE WINCHESTER MODEL 1886 50/110 EXPRESS RIFLE.
Serial No. 106878 According to the factory letter, this rifle was shipped on January 24th, 1896 as a rifle, caliber .50/110, round barrel and plain trigger. This rifle matches that shipping information. Standard features include 26" full round barrel, full magazine, blued finish, straight grip walnut stock and crescent steel buttplate. Top of barrel is stamped "50 EX", has the Winchester sporting front with German nickel blade and fire blue three leaf folding express rear sight. The barrel is basically a smooth clean patina. Tube retains approximately 40% original blue starting to plum. The frame is also basically a smooth clean patina with some traces of finish in recesses. Walnut stocks are excellent and appear to have had extra finish added. A tang sight was present at some time. Strong rifled bore and perfect action. These large caliber Model 1886's are amongst the most desirable Winchester lever actions and this example bears no apologies. 8,000.00 - 15,000.00

873 - **SCARCE WINCHESTER MOD 63 1ST YR. PROD. CARBINE.
Serial No. 282 This carbine was most likely produced in the first full month of production in 1933. Features a 20” barrel, blued finish, takedown, plain pistol grip walnut stock, sporting sights and smooth steel buttplate. Gun retains virtually all of its original finish on metal surfaces with some minor high edge wear and a bit of light freckling on frame. Solid 98%. Wood is excellent with no cracks or chips, just a little wear to finish on high edges. Mint bore and action. The barrel measures 20”, has the flat muzzle with proper 1” center setback of front sight. Later Model 63’s have the rounded contoured crown, while this is a flat cut similar to Winchester Model 1903. There is no sign that the barrel has been trimmed and the flat muzzle is an early production feature, albeit no factory letters are available for this gun. Fine 63 semi-automatic rifle. Scarce to find early three digit serial number. 900.00 - 1,500.00

Serial No. 314618 Offered is an original Winchester Model 61 hammerless pump action rifle chambered for the .22 rimfire cartridge. It is a standard Model takedown in all respects. Features a 24” round barrel, blued finish, plain pistol grip walnut stock, grooved flat bottom forend and hard Winchester logo buttplate. Frame and lower tang retain all of the original factory blue finish, as does the barrel and the tube. There are no signs of wear on the slide. While the rifle may have been fired, it shows virtually no wear of any kind sans a minute hint of thinness around muzzle, most likely from storage. It is housed in its original Winchester cardboard two-piece box. It has the proper end label with matching serial number, dividers, and the booklet. The walnut stocks are near mint with a couple of very minor impressions. It is a beautiful near mint to mint boxed Winchester from the Golden Era of .22 rifles of unsurpassed quality. 2,000.00 - 3,000.00

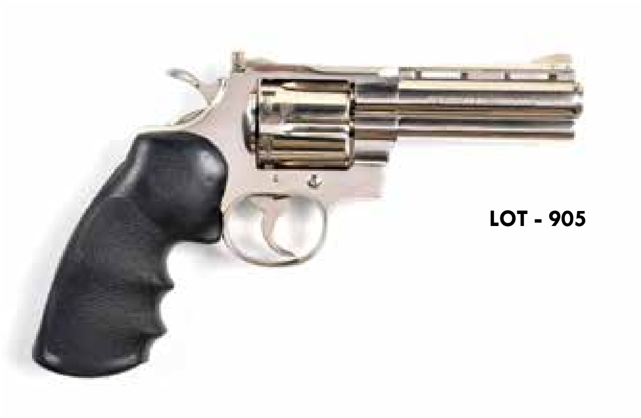
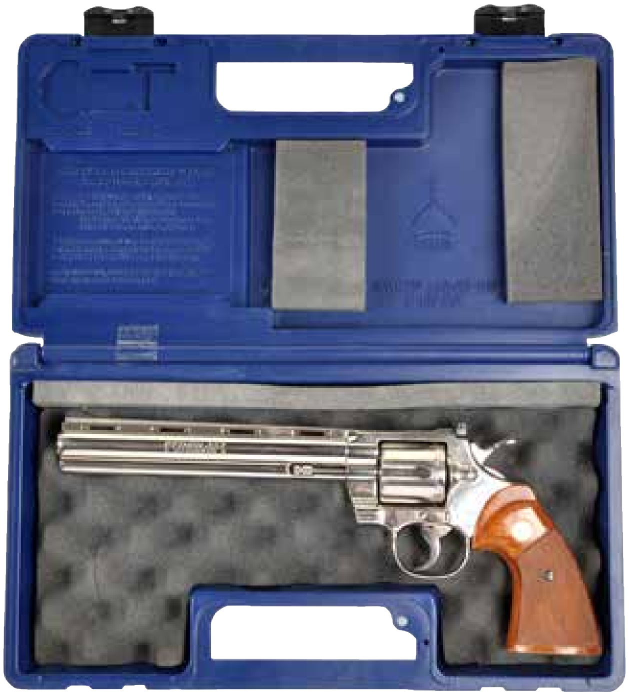
LOT - 904

904 - **COLT PYTHON DOUBLE ACTION REVOLVER.
Serial No. 51006 Manufactured in 1966. Features include a 4" vent ribbed barrel, full lug, six shot, fluted cylinder, blued finish, chambered for the .357 magnum cartridge. Also features adjustable rear sight, wide target hammer, original grips were replaced with set of Pachmayr rubbers. Gun has been used and carried with typical police holster weapon. Retains approximately 97% original factory blue with high wear on all edges and some storage marks. Action and bore are excellent. Given this was a well used but well cared for hand gun, this relegates it to a shooters category. 800.00 - 1,200.00



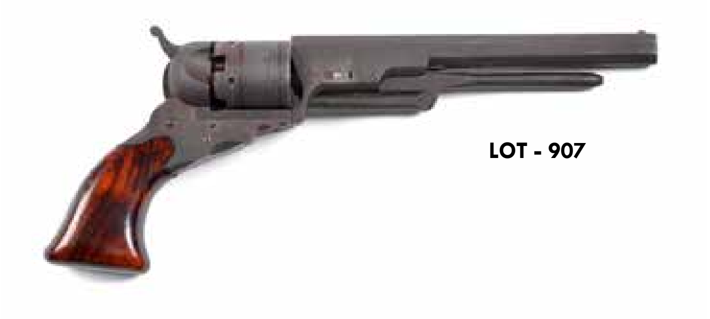
LOT - 905

905 - **COLT PYTHON DOUBLE ACTION REVOLVER.
Serial No. 99065 Manufactured in 1969, classic Python, early factory nickel finish, 4” vent ribbed barrel, full solid lug, double action, six shot, chambered for the .357 magnum cartridge, other features include fully adjustable rear sight, wide target hammer. Original grips have been replaced with a pair of Hogue mongrips. Has been fired, copper plating is showing through on end of cylinder, a few minor rub spots on cylinder and a bit of holster wear at muzzle. Still retains approximately 98% of the factory nickel, bore and action are perfect, probably not high enough condition for collector grade but still very clean and a fine shooter. 1,200.00 - 1,800.00



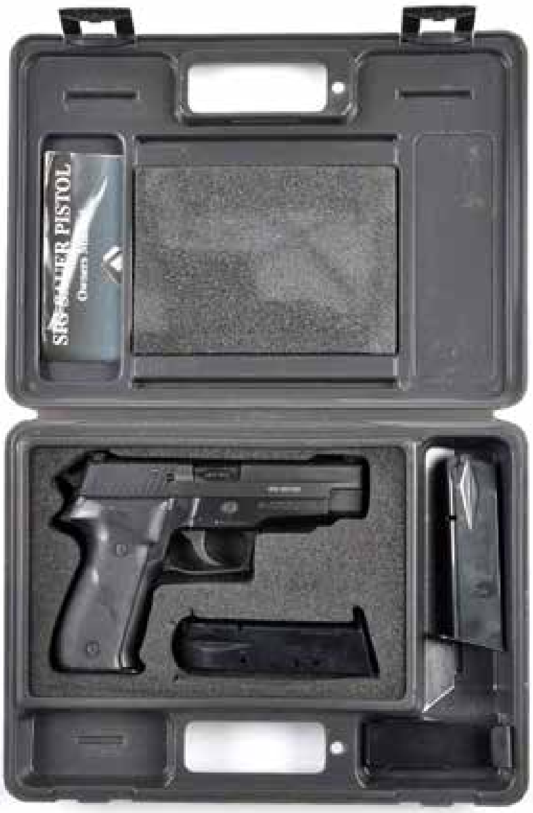
LOT - 906

906 - **COLT PYTHON DOUBLE ACTION REVOLVER.
Serial No. K43663 This Python revolver was manufactured in 1981. Standard factory features include an 8” vent rib barrel, six shot, double action, full factory nickel finish, factory checkered walnut grips, wide target hammer and fully adjustable rear sight. Chambered for the .357 magnum cartridge. These guns have become iconic with its appearance in the new “Walking Dead” television series. The full factory nickel 8” barrel version is one of the harder to find variations. Gun remains in excellent shape. It has been fired. Retains virtually all of the original factory nickel, but as is usual with nickel plated guns, it does have the typical light storage scuffs. There is one pinhead size area of exposed metal at left front bottom of frame and a light drag line. Grips are very good but there is some finish loss at the butt that could easily be brought up to snuff. 2,000.00 - 3,000.00



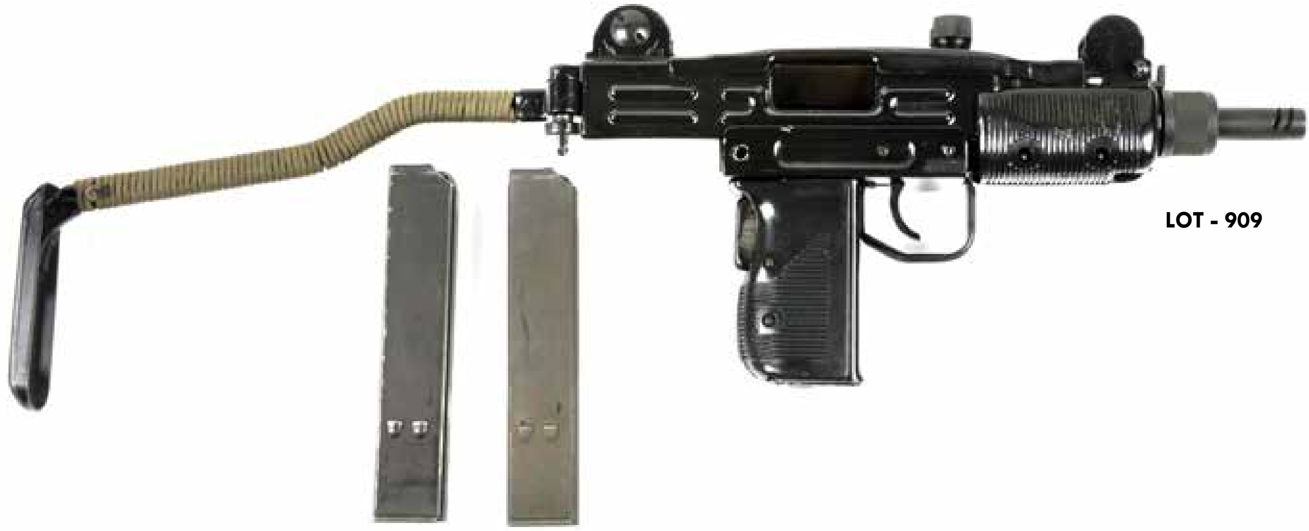
LOT - 907

907 - COLT HOLSTER MODEL PATERSON REVOLVER.
Serial No. 6161 This revolver, also known as the “No. 5”, is a wonderfully aged reproduction of some sort. Manufacture unknown but obviously a very good copy of the No. 5 pistol that has been aged to an all brown patina. Features a 7-1/2” octagon barrel, five shot, .36 caliber percussion and varnished walnut grips. Near mint bore. Perfect action. Traces of cylinder scene. Perfect nipples. No markings other than the serial number. Grips appear aged. This pistol will be great as a cowboy action shooting gun and it looks like the real deal. 400.00 - 800.00



LOT - 908

908 - **BOXED SIG SAUER PISTOL (TX RANGER DOCUMENTED).
Serial No. U588059 Made in Germany. This Sig Sauer pistol is a semi-automatic double action magazine fed chambered for the .357 Sig cartridge. It is a Model 226 with the matte finish and composite black grips. Gun has been fired. There is little wear on the bolt. Has the white dot drift sights and a 4-3/4" barrel. Comes with three magazines. This model has the nitro black and stainless steel slide. There is a light drag line at takedown, otherwise it is near mint. In the box with all paperwork. This pistol comes with all the documentation confirming its use by Calvin Collins who was stationed in El Paso with the Texas Rangers. The pistol comes with a DPS inventory card that lists this pistol by serial number having been signed out by Mr. Collins. It also comes with a letter from Mr. Collins attesting to the fact that he carried this weapon while he was assigned to George W. Bush's protective detail beginning in June of 1999 through March of 2000. Accompanying this pistol is a Texas Rangers Company E 2000 composite photograph of all the members of the Texas Rangers at the time Mr. Collins was there, and each member has autographed this photo. In addition to being a member of President Bush's security team, the El Paso based Texas Ranger division has been at constant war with the Mexican drug lords and smugglers, making it one of the more troublesome hot spots for any law officer. To write about the exploits of the Texas Rangers would, and has, filled volumes. Rarely does an opportunity to own a piece of Texas Rangers memorabilia present itself. 2,500.00 - 3,500.00



LOT - 909

909 - **FULLY AUTOMATIC MINI UZI MACHINE PISTOL.
Serial No. MU03473 Chambered for the 9mm Parabellum cartridge. Manufactured by IMI of Israel and imported by Action Arms of Philadelphia. This Class III weapon is a pre-1986 dealer sample and is transferable to persons with an appropriate license. All NFA requirements apply for transfer. Only dealers with the FFL Special Occupational Tax (SOT) Class III license may bid. Gun features a 7-3/4" barrel, metal folding rear stock, black military finish, hard plastic forend and grip, select fire mechanism on left side, grip safety. The Uzi was introduced in 1950 as a prototype. Manufacture began in 1954. It is an open bolt blowback design, magazine fed through the base of the pistol grip. The mini Uzi was actually introduced to the U.S. in 1987. This gun is fully operational. Shows usual high edge wear (gun has seen some use). Has a paracord wrapped skeletal metal stock. Action Arms No. A00004 stamped under bottom of receiver. The barrel is vented and has adjustable front and rear sights. Comes with two magazines. This gun is arguably one of the most famous fully automatic machine pistols ever manufactured and was featured prominently in Israel's six day war and has since become a mainstay for militias and insurgents around the world. It has entrenched itself into the American lexicon with its appearance in hundreds of Hollywood action blockbusters. Its mystique is without equal. 4,000.00 - 8,000.00

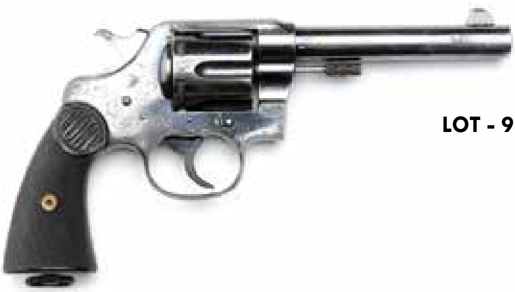
936 - **1ST GEN. COLT S.A.A. REVOLVER.
Serial No. 241067 This revolver was manufactured in 1903 and is chambered for the .32 WCF cartridge. It is a single action, six shot, with a 7-1/2" barrel and Colt gutta percha grips. This revolver remains in excellent all original condition. Barrel retains approximately 20% of the original factory blue finish. The balance of the gun is basically a smooth gun metal patina. Grips are very good with no cracks or chips, although checkering is somewhat worn smooth. Has perfect lock up with all four clicks. Very good bore with some minor corrosion. Nice clean example of early Colt smokeless single action. 1,200.00 - 2,500.00



LOT - 937

937 - **COLT NEW SERVICE DOUBLE ACTION REVOLVER.
Serial No. 78880 This revolver was manufactured in 1915 for the British market to coincide with their entrance into the Great War. It is a standard old Model double action, six shot, 5-1/2" barrel, high polish blued finish, Colt gutta percha grips. As is usual with these British models, you will find British proofs on the frame, cylinder and barrel. This example is interesting in that it was originally chambered and stamped ".455 Eley" which has been X'ed out leaving the ".45" and "Colt" stamped beneath, meaning it is chambered for the .45 Colt cartridge. The back of the cylinder has not been trimmed and has the British proofs. The gun retains approximately 75% of the original Colt high polish blue finish. Grips are excellent. Action is perfect. Strong clean bore.
500.00 - 1,000.00

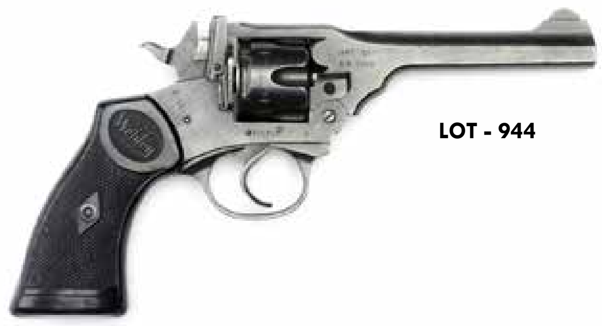
943 - **BRITISH PROOFED COLT NEW SERVICE REVOLVER.
Serial No. 79291 This revolver was original manufactured in 1915 as a standard New Service double action revolver chambered for the .455 Eley cartridge. Standard features include .45 caliber, 5-1/2” barrel, six shot, double action. This revolver was shipped to Great Britain probably for the first World War and has proper British proofs on frame, cylinder and barrel. Has the standard gutta percha grips with lanyard loop in butt. This gun was eventually refinished, most likely by the British Arsenal and a parkerized war-time finish was applied. The cylinder was altered to accept the .45 Colt cartridge. Stamped “CAL. 45 COLT” on barrel. The gun retains 95% of this reapplied war-time military dull finish. Action and lock up are perfect. Nice clean bore. Good example of a sturdy Colt that more than likely saw service in Europe through two World Wars. 400.00 - 600.00



LOT - 944

944 - **WEBLEY & SCOTT (WAR FINISH) D.A. REVOLVER.
Serial No. 135742 This is a fairly standard World War II era double action revolver chambered for the .38 Smith & Wesson cartridge. It is a six shot, double action only that features a 5” octagon barrel, dark war finish matte blue with Webley checkered plastic grips. Revolver has all proper British proofs. Function is flawless. Lock up is tight. Bore is near mint. Retains approximately 95% original finish. Grips are excellent. 200.00 - 400.00

1090 - **LOT OF 2: CZ-BRNO CZ-52 SEMI-AUTOMATIC PISTOLS.

Serial No. K09627 & FK07510 Both pistols are chambered for the 7.62 Tokarev. The CZ 52 (also known by the Czechoslovak military designations vz. 52,for “model of 1952”, and CZ 482) is a semi-automatic pistol designed by two brothers, Jan and Jaroslav Kratochvíl, in the early 1950’s for the Czechoslovak military. Around 200,000 vz. 52s were made by Ceská Zbrojovka in Strakonice from 1952 to 1954. The vz. 52 replaced the 7.65mm Browning caliber (.32 ACP) Vz.50, which had acquired a reputation for unreliability and was underpowered for its role as a military service sidearm. After 30 years of military service, the vz. 52 was eventually replaced by the 9x18mm Makarov caliber vz. 82. Both guns have a 4-5/8” barrel, have a flat grey matte finish, brown composite grips. One gun retains approximately 90% of the dark grey finish with high edge wear. The second gun has a light grey appearance from holster wear. Both guns have excellent bores and actions, and come in holsters with one extra magazine and cleaning rod. 200.00 - 400.00

Interesting entries include; September 28, 1861: Arresting persons for treason against the Confederate States, September 30, 1861: Defenses of Fort Macon, October 3, 1861: "Young Yankee School Mistress" returning north, October 8, 1861: Appoint of a regimental chaplain, October 17, 1861: Muster of Cherokee Indians into Confederate service, October 24, 1861: Information of Invading army to New Bern, January 6, 1862: Documentation of state service vs. Confederate service, January 10, 1862: Redeployment of exchanged Confederate prisoners, January 14,1862: Shipment of 1000 pounds of cannon powder, January 18, 1862: Investigation of CS officers re: citizen complaints, January 20, 1862: Deserter giving up pistol, January 21, 1862: Request for muskets with 1000 flintlock muskets available, January 21, 1862: Shipment of 2500 pounds of gunpowder, January 23, 1862: Receipt for 600 muskets and 20,000 ball cartridges, January 25, 1862 Receipt of 180 altered muskets and 520 flintlock muskets, January 25, 1862: Transfer of 10 cavalry troopers to the Confederate States Navy, March 13, 1862: Prevention of cotton falling into hands of enemy, and March 17, 1862: Orders to proceed to Goldsboro, NC with troops under arms. Richard H. Riddick (1825-1862) was born in North Carolina and lost his father at an early age and was subsequently raised by his uncle. Richard H. Riddick served in a North Carolina regiment during the Mexican War. After the Mexican War, he was appointed clerk in the Department of the Interior and in 1855, he was appointed a lieutenant in the 1st Regiment U.S. Cavalry until his resignation to join the North Carolina state troops for the Confederacy. In June of 1861 Riddick was appointed lieutenant. Colonel and assistant adjutant general to Major General R. C Gatlin commanding the southern coast defenses of North Carolina. On July 1, 1861 he was promoted to Colonel and Adjutant General for the State of North Carolina. On September 2, 1861 he was given the rank of Major and assistant adjutant general on the staff of General R. C Gatlin. Riddick was appointed and commissioned Colonel of the 34th North Carolina Infantry in April of 1862 and while participating in the battle of Gaines' Mill, Virginia on June 27, 1862 was wounded. Not fully recovered from his wounds he rejoined his regiment and was again wounded at the battle of Ox Hill, Virginia on September 1, 1862. When his men rushed to his aid after his wounding Riddick said, "go, I am shot but not conquered". He died of these wounds on September 7, 1862. (Very Good). 800.00 - 1,200.00

1929 Duesenberg Model J

—— At Auction October 11, 2015 ——

Morphy Auctions is proud to represent the Paul Hedburn collection of historic automobiles highlighted by the most original 1929 Duesenberg Model J Convertible Coupe in existence.

With detailed history of ownership since its original order being placed in June of 1929, only three women have graced its possession over the last 86 years. Past winner of the famed Meadow Brook Concours Best Original Car, the J-192, serial number 2212 has traveled just 33,000 miles from new. Just one of the many pre-war treasures offered fresh to market and sold at no reserve.
